UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

MARK SCHEME for the May/June 2011 question paper

for the guidance of teachers

0610 BIOLOGY

0610/63

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Page 2 Mark Scheme: Teachers' version		Paper
	IGCSE – May/June 2011	0610	63

Question	Mark scheme		Guidance / comments
1 (a)			If no table drawn, mark other parts independently if appropriately laid out but if bar chart / histogram MAX 2
	Complete table with cells neatly drawn;		Reject cells not drawn completely / headings outside cells / obviously unruled lines
			Table can be either way round
	Columns or rows headed S1, S2, S3 ;		Accept 0.2%, 0.05%, ?/ unknown if S1, S2 and S3 are not present in the table
	Column or row headed drops of iodine solution;		Ignore drops alone / iodine without solution Reject if drops appears in the body of the table
	Correct results (22, 6, 11);	[4]	Ignore tally without numbers
(b)	0.09% – 0.11%;		Incorrect percentage = 0 If no percentage given Accept S3 (concentration) in between S1 and S2 or S3 (concentration) less than S1 / 0.2% or S3 (concentration) greater than S2 / 0.05%
	Correct use of 11 drops for S3 ;		If 11 drops not mentioned Accept number of drops for S3 = half number for S1 / number of drops for S3 = double number for S2
	Correct reference to drops and concentration (for S1 or S2);		N.B. Can refer to conc. and number of drops separately or together anywhere in answer.
		[3]	Accept as an alternative – calculation of ratio of drops : concentration even if S1 / S2 are not specifically mentioned

		IGCSE – May/June 2011		0610	63	
(c)	Four marks from:					
	Repeats / replicates the	original experiment / AW;	Ignore	repeat experimer	nt with different	conditions
	Average / mean;					
	Use more precise instrument to measure volume of drops;			Accept syringe / burette / (Pasteur) pipette Ignore measuring cylinder		
	Measure volume in cm ³	not drops alone;		re cm ³ with a bure		
	Use a colorimeter / white	e card to judge colour / AW;				
		en the concentrations on either side of centrations between S1 and S2 / AW;	Ignore 'more concentrations' alone			
			temperature, stirr apparatus alone	ing, pH, time		
(d) (i)	O – Orientation;		O – ' x ' solutio	-	ʻ y ' axis – numbe	er of drops of iodine
	A – Axes labels;			cept as minimum t general fruit juice		ned fruit (juices)
	S – Scale;		S – co	umns plotted to fil	l greater than h	alf of grid
	P – Plots – correct heigh	nts of columns;	P – de	duct mark for any	incorrect	
	L – Line – neat columns	· · · · · · · · · · · · · · · · · · ·	L – rule	er used and colum	nns of equal wid	th
		[5]	If line g	graph allow O, A a	nd S only MAX	[3]
(ii)	Blackcurrant	[1]				
		[Total: 17]				

Mark Scheme: Teachers' version

Syllabus

Paper

Page 3

	Page 4		Mark Scheme: Teachers' version IGCSE – May/June 2011]
2 (a) (i)	 O – single clear lines S – larger than photo 			Reject sketched / artistic lines Reject shading		
	N – number of segme	N – number of segments drawn;		Accept 11 / 12 / 13 segments (not including the head)		
	D – detail / markings	within at least 3 segments;		Segments must be distinct / discrete / complete		omplete
	A – appendages on o	opposite sides of at least 6 segments;	[5]	Accept even if sketchy or shaded or incomplete [5]		
(ii)	Fig 2.1 larva = 8.3 +/	/– 0.1 cm / 83 +/– 1 mm;				
	Length of larva in dra	awing in mm / cm (+/– 1 mm or +/– 0.1 c	cm); [2]			
(iii)	correct magnification	and X;;	[2]	Accept correct answer a Accept correct answers allow correctly rounded Accept X before or after If answer incorrect (inco then allow max 1 for corr length of image (in word	to any number answers) r magnification / rrectly calculate rect working e.g	decimal places (i.e. ′ 'times' d / no X / units used)

	Page 5	Mark Scheme: Teachers' versior	n Syllabus	Paper	
		IGCSE – May/June 2011	0610	63	
(b) (i)	/ tubes; <i>Working</i>	how it was used to calculate area of leaf , (total area of leaf) = 55 to 60;	It must be clear that method of adding squares and parts of squares on the grid to find total area was used. Accept obvious reference to number of squares and parts of squares(covered by leaf or tubes) in working		
	Correct calculation to wo 3 to 20 / 55 to 60 x 100;	rk out percentage / [3]	Accept the formula in we multiplied by 100' if equa Accept error carried for the formula in the	ation not expresse	ed numerically
(ii)	Two marks from: Able to eat through palis	ade and spongy mesophyll;	Accept leaf blade, igno	re leaf tissue	
	(Midrib too) tough / AW;		Accept strong, thick, ha	rd	
	Cannot get food out from	within midrib;	Ignore too little food in n	nidrib	
	Correct reference to (tou	gh) lignin / xylem (tubes); MAX [2]	Ignore phloem		
(iii)	No / less photosynthesis	(in damaged areas) / AW;	Accept valid description	is e.g. less food m	nade
	Dries out / too much wat cells) / AW;	er lost / reduced water transported (to	Ignore reduced transpira Ignore larva takes away	-	stomata
	Infected with fungi / bact	eria / viruses / AW; MAX [2]	Accept disease		

Page 6	Page 6 Mark Scheme: Teachers' version		Paper	
	IGCSE – May/June 2011	0610	63	

	(c)	(i)	jointed legs or appendages or limbs; [1]	Ignore exoskeleton (as not clear in fig.) / joined legs Reject if answer contains incorrect characteristics e.g. wings
		(ii)	Three marks from: Head, thorax and abdomen / 3 parts to body; 1 pair antennae; 3 pairs legs; 2 pairs wings; MAX [3]	Ignore segments / body segments Ignore compound eyes
			[Total: 20]	
3	(a)		increases / dilates / AW; [1]	
	(b)		Low(er) intensity / less light (enters eye) / to get more light into the eye / AW; Circular muscles (of iris) relax / lengthen; Radial muscles contract / shorten; MAX [2]	Accept room is darker Ignore references to ciliary / longitudinal muscles Ignore descriptions of reactions to full light / photograph A
			[Total: 3]
