

AS Level Biology A H020/01 Breadth in Biology

Question Set 12

1. Fig. 22 shows a triglyceride molecule found in sunflower oil.

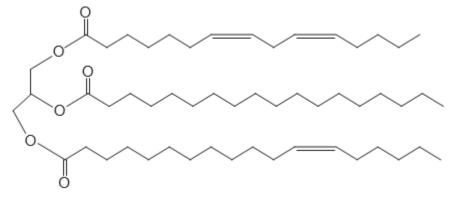

Fig. 22

(a) On Fig. 22 circle an ester bond.

(c)

[Answer on Fig. 22]

(b) Sunflower oil is used to make biodiesel, which contains methyl esters. The fatty acids in thetriglyceride molecule are reacted with methanol in a process called transesterification.

After the reaction, two liquid products form which naturally separate from each other. Themethyl esters float on top of a more dense liquid.

Name the part of the molecule seen in Fig. 22 that forms this more dense liquid.

.....

Living organisms have many uses for triglycerides, one of which is the production of phospholipids.

(i) Name three **other** functions of triglycerides in living organisms.

1		
2		
3	· · · · · · · · · · · · · · · · · · ·	[3]

[1]

[1]

(ii) Table 22 shows the melting points of some of the methyl esters made from the transesterification of sunflower oil fatty acids.

Methyl ester	Formula	Melting point (°C)
Methyl sterate	C ₁₉ H ₃₈ O ₂	39.1
Methyl oleate	C ₁₉ H ₃₆ O ₂	-19.9
Methyl linoleate	C ₁₉ H ₃₄ O ₂	-35.0

Table 22

Describe and explain the pattern of the melting points of these three methyl esters.

[2]

(d) Phospholipid molecules also contain fatty acids.

Explain how the fatty acids in phospholipids allow the formation of membranes. [2]

Total Marks for Question Set 12:9

Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website (www.ocr.org.uk) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.
