Formula list

Area and volume formulae

Where r is the radius of the sphere or cone, l is the slant height of a cone and h is the perpendicular height of a cone:

$$\text{Curved surface area of a cone} = \pi r l$$

$$\text{Surface area of a sphere} = 4\pi r^2$$

$$\text{Volume of a sphere} = \frac{4}{3}\pi r^3$$

$$\text{Volume of a cone} = \frac{1}{3}\pi r^2 h$$

Kinematics formulae

Where a is constant acceleration, u is initial velocity, v is final velocity, s is displacement from the position when $t = 0$ and t is time taken:

$$v = u + at$$

$$s = ut + \frac{1}{2}at^2$$

$$v^2 = u^2 + 2as$$

1. The table below shows the prices of items in a shop.

Price List	
Eraser	58p
Revision guide	£3.45
Calculator	£7.25
Pen	35p
Geometry set	£0.95

(a) Write the prices in order, starting with the cheapest. [2]

.....

.....

.....

Cheapest

(b) What is the cost of 1100 erasers? [1]

.....

.....

(c) Fred buys some pens.
He pays a total of £4.90.
How many pens does Fred buy? [2]

.....

.....

(d) Salma buys a pen, a geometry set and a calculator.
She pays with a £10 note.
How much change should she get? [2]

.....

.....

.....

.....

2. The chart below shows distances between some cities in England, using the best routes. All distances are in miles.

London				
121	Birmingham			
204	89	Manchester		
216	101	34	Liverpool	
211	133	71	102	York

Answer the following questions. Use the information in the chart above.

- (a) Write down the distance between Birmingham and Liverpool. [1]

.....

- (b) Name the two cities that are 71 miles apart. [1]

..... and

- (c) One day Dev drives from London to Manchester and then from Manchester to Liverpool. How much further is this journey than driving directly from London to Liverpool? [2]

.....

3. (a) Shay has b books.

(i) Wilma has 5 fewer books than Shay.
Write an expression to show the number of books that Wilma has. [1]

.....
.....

(ii) Ellie has 3 times as many books as Wilma.
Write an expression to show the number of books that Ellie has. [1]

.....
.....

(b) Shay has written this statement in his maths homework.

$$5x + 3y = 8xy$$

Is Shay correct?

Yes No

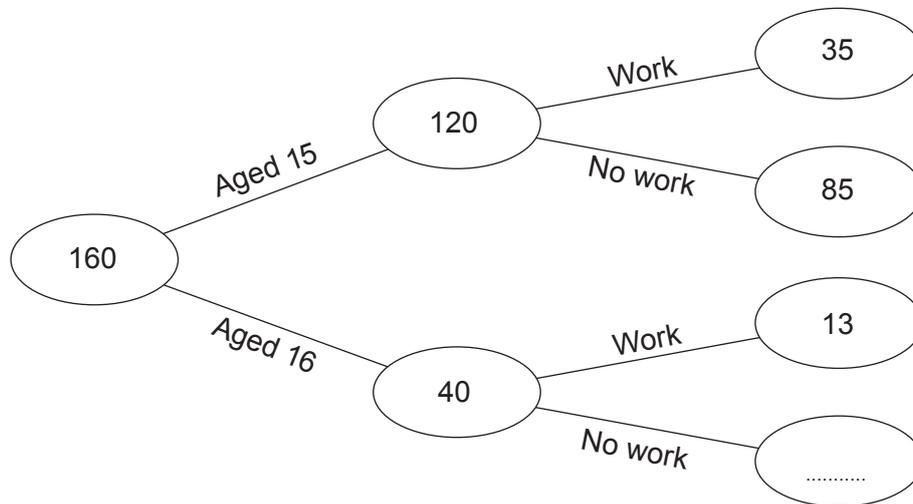

Explain how you decide. [1]

.....
.....

(c) Find the value of $15x$ when $x = -23$. [1]

.....
.....

4. In November 2018, a survey was completed by all the students in Year 11 at *Thomas Bees Academy*. Students were asked their age and whether they had any part-time work. Some of this information is shown in the frequency tree below.

- (a) How many of the students were aged 15 in November 2018? [1]

.....

- (b) In total, how many of the students do not have any part-time work? [2]

.....

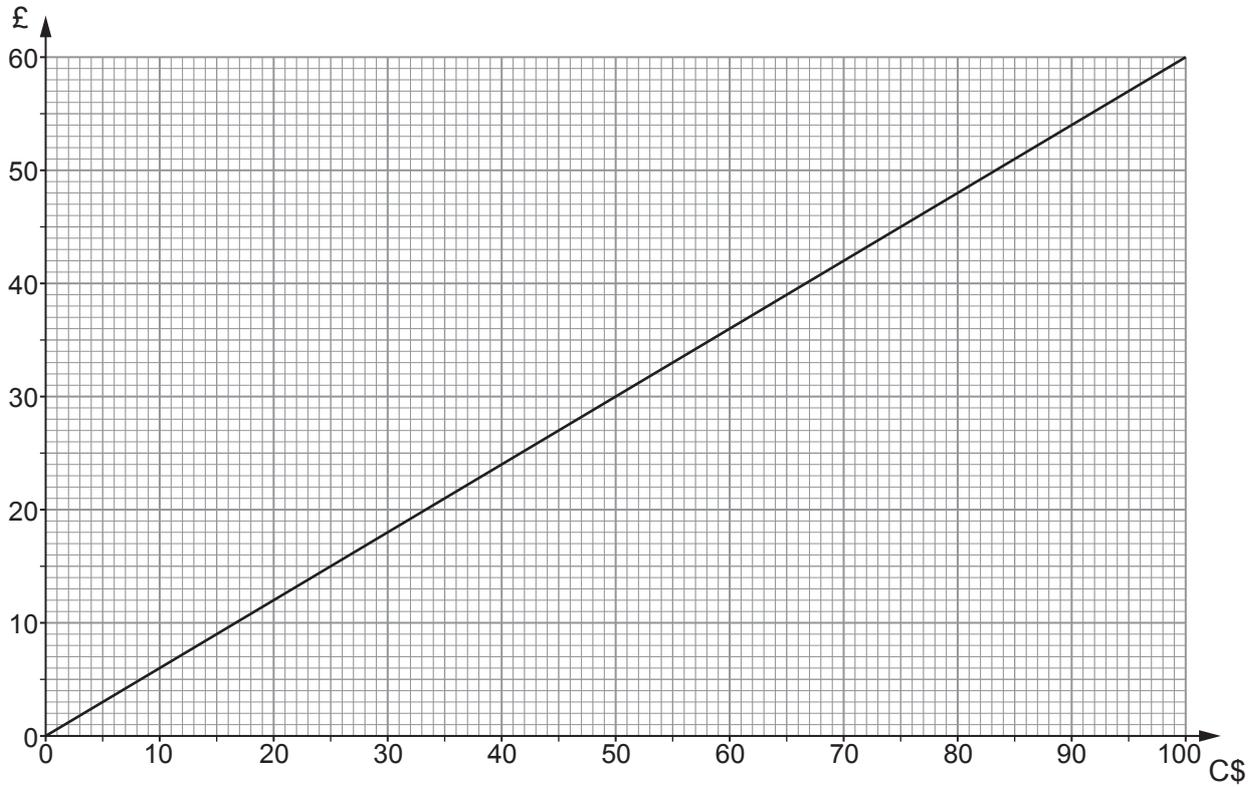

- (c) The same survey was repeated in April 2019. No students had joined or left Year 11. The number of students aged 15 who had part-time work was only 23. Explain why this change may have happened. [1]

.....

.....

.....

5. (a) The graph below can be used to convert between Canadian dollars (C\$) and pounds (£). An exchange rate from 2018 has been used.

- (i) Use the graph to convert C\$ 50 into pounds (£). [1]

-
 (ii) Use the graph to convert £25 into Canadian dollars (C\$). [1]

-
 (iii) Convert C\$ 160 into pounds (£). [1]

.....

- (b) In 1998 the exchange rate was £1 = C\$ 2.44.

How many **more** Canadian dollars would you have received for £25 in 1998 compared with 2018? [2]

.....

7. (a) Expand and simplify $(x + 6y)(3x + 5y)$. [3]

.....
.....
.....

(b) Factorise $x^2 - 13x + 36$. [2]

.....
.....
.....
.....

(c) Solve $w^2 + 7w - 18 = 0$. [3]

.....
.....
.....
.....
.....
