

UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS
GCE Advanced Subsidiary Level and GCE Advanced Level

**MARK SCHEME for the October/November 2011 question paper
for the guidance of teachers**

9700 BIOLOGY

9700/33

Paper 3 (Advanced Practical Skills 1),
maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

Mark scheme abbreviations:

;	separates marking points
/	alternative answers for the same point
R	reject
A	accept (for answers correctly cued by the question, or by extra guidance)
AW	alternative wording (where responses vary more than usual)
<u>underline</u>	actual word given must be used by candidate (grammatical variants excepted)
max	indicates the maximum number of marks that can be given
ora	or reverse argument
mp	marking point (with relevant number)
ecf	error carried forward
I	ignore
ACE	Analysis, Conclusions and Evaluation (skills)
MMO	Manipulations, Measurement and Observation (skills)
PDO	Presentation of Data and Observations (skills)

Page 3	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

1 (a) (i)		[3]
	Do not give marks mp2 and mp3 for simple dilution	
MMO decisions 1	[1] mp1	labels under correct sequence of beakers <u>0.5</u> (%) AND <u>0.05</u> (%) AND <u>0.005</u> (%);
		Additional guidance Must have % once
MMO decisions 2	[1] mp2	Must be serial dilution (R if simple dilution) and adds previous concentration of milk (M) to each of three beakers and 1 cm ³ (adds previous concentration of M to each of three beakers and 1 cm ³) EITHER 1 cm ³ on an arrow from each previous beaker to next OR <u>1</u> cm ³ of <u>5</u> (%) (to 3 rd beaker) AND <u>1</u> cm ³ of <u>0.5</u> (%) (3 rd to 4 th beaker) AND <u>1</u> cm ³ of <u>0.05</u> (%) (4 th to 5 th beaker);
		Additional guidance Must have cm ³ once in either and or % once when labelling or ecf if mp1 not given
	[1] mp3	(adds (distilled) water /W to each of three additional beakers but MUST add previous concentration to fourth and fifth beakers) <u>9</u> cm ³ (into each beaker 3 rd /4 th /5 th) of (d) <u>W</u> or <u>water</u> ;
		Additional guidance Must have cm ³ once ecf if mp2 not given

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

	(ii)	[5]
PDO recording 2	[1]	table with cells drawn AND heading (top left) percent(age) conc(entrati <u>o</u> n) ; Additional guidance A no outer boundary A % R % in body of table R other units e.g. mol dm ³
	[1]	(headings) colour OR observation(s) AND number or no or # or scale; Additional guidance R headings for standardised variables e.g. volumes Ignore heading for test-tubes or additional observations
MMO collection 3	[1]	records results for any 5 different concentrations and U (ignore position) and W/O ; Additional guidance A colours or numbers or only whole numbers
	[1]	records their highest concentration as highest <u>number AND</u> records next lower concentration next highest <u>number</u> ; Additional guidance Must have at least two readings other than U A any values 10 or below A scale numbers in incorrectly headed column/row
	[1]	records collection of EITHER (for W) blue or no purple AND 0 OR records replicate; A scale numbers in incorrectly headed column /row

Page 5	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

(iii)	[2]																
MMO decisions 2	[1]	(from their results) puts U in correct position on scale;															
		<p>Additional guidance</p> <table border="1" style="margin-left: 40px;"> <tr> <td style="text-align: center;">50</td> <td style="text-align: center;">5</td> <td style="text-align: center;">(0).5</td> <td style="text-align: center;">(0).05</td> <td style="text-align: center;">(0).005</td> </tr> <tr> <td style="text-align: center;">18</td> <td style="text-align: center;">1.8</td> <td style="text-align: center;">0.18</td> <td style="text-align: center;">0.018</td> <td style="text-align: center;">0.0018</td> </tr> <tr> <td style="text-align: center;">10</td> <td colspan="3" style="text-align: center;"> </td> <td></td> </tr> </table> <p>A ecf from different concentrations R if shows values in wrong order from their results R no value for U in results</p>	50	5	(0).5	(0).05	(0).005	18	1.8	0.18	0.018	0.0018	10				
	50	5	(0).5	(0).05	(0).005												
18	1.8	0.18	0.018	0.0018													
10																	
[1]	(from their result for U) correct quantity to complete the statement 'between ... and ...' as																
	Additional guidance A ecf from different concentrations																

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

(iv)		[max 3]
ACF Interpretation 2	mp1	(independent variable) Idea of use or (repeat with) more concentrations between <u>two examples</u> of concentrations used -50% and 0; Additional guidance Ignore just wider/higher/lower ecf from answer to (a)(ii) or (a)(iii) if U more than 50%
	mp2	Gives two examples/figures relevant EITHER to their estimate OR between 50% and 0 OR description of use of e.g. colorimeter readings to draw a calibration graph and read off estimate; Additional guidance ecf if recorded U is above 50% then allow two examples more than 50% for mp1 and mp2 R if examples not in correct range e.g. more than 50% when U not recorded more than 50%
	mp3	(dependent variable) use colorimeter or colour standard card for colours and numbers; R cAlorimeter R white card or tile (since this is given)
	mp4	replicate or repeat U ; Additional guidance A more times/trials/readings or repeats or repeat ignore mean ignore repeat with different concentrations
	mp5	(standardised variables) use graduated pipette or syringe with smaller divisions or burette or measuring cylinder (as milk is too thick for syringe)
ACF Interpretation max 1		

Page 7	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

PDO layout 4	(b) (i)	[4]
	O	<p>x-axis <u>time</u> (t) s or <u>sec</u>(onds) R T or t AND y-axis <u>conc</u>(entration) of <u>protein</u> (l) <u>mg dm⁻³</u> ; R mg/dm³ A mg/dm³</p> <p>Additional guidance Must have units on x-axis and y-axis</p>
	S	<p>scale as x-axis <u>10 to 2 cm</u> AND y-axis <u>20 to 2 cm</u> ;</p> <p>Additional guidance ecf if no labels for axes If reverse then scale must use more than half grid for both x and y and not have an awkward scale. If move origin from 0 must label value at origin. A no 0 label at origin and no end label R awkward scale</p>
	P	<p>correct plotting of each point to <u>within</u> half a square i.e. less than 1 mm from intersection;</p> <p>Additional guidance A small cross or dot in circle or cross in circle A ecf if x-axis not 0 if scale 20 to 2 cm even R if</p> <ul style="list-style-type: none"> • awkward y-axis scale • blobs or dots alone • cross too large
L	<p><u>ruled</u> lines point to point or <u>ruled</u> line of best fit (two plots on line and then 2 and 1 either side of line) AND quality clear sharp;</p> <p>A extrapolation from line of best fit to vertical or horizontal lines of plotted point only R if</p> <ul style="list-style-type: none"> • less than 5 plots • line 1mm or thicker • any feathery line • irregular thickness • extrapolated when point to point line <p>Additional guidance A ecf from incorrect P</p>	

Page 8	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

	(ii)	[3]
ACE interpretation 1	mp1	longer time (to collect) less protein present as time increases the concentration decreases OR shorter time more protein present as time decreases the protein concentration increases;
		Additional guidance Ignore (inversely/directly) proportional
	mp2	Idea of (longer time in contact or to collect) <u>protease or enzyme</u> hydrolyses or digests or breaks down protein; Additional guidance R if in context of change in concentration Ignore beads
ACE conclusions 2	mp3	(longer time) idea of ref. ES complexes or described OR (more likely) ref active sites used; (shorter time) idea of ref ES complexes or described OR (less likely) ref active sites used; Additional guidance R if protein used again R enzyme all used up
	(iii)	[2]
ACE interpretation 2	[1]	0.5 divided by / 15 multiplied by $\times 100$;
	[1]	correct answer; ecf for $1 / 15 \times 100$
		[Total: 22]

	GCE AS/A LEVEL – October/November 2011	33
	Syllabus	
	9700	

2 (a)	[5]
PDO layout 1	[1]
MMO collection 2	[1]
PDO recording	[1]
MMO decision 1	[1]

no shading anywhere **AND** width across lines forming outer layers (convex surface) or largest enclosed area longer than 20 mm **AND** (clear, sharp, unbroken lines);
Ignore spaces drawn in innermost layer or enclosed areas outside lines
Must have three or more hand drawn lines either with at least one folded **or** wavy line or may include at least one enclosed area to be assessed.
R if

- drawn over the print of question
- any line 1mm or thicker or ruled
- any feathery or broken /dashed
- 2 'tails' or overlaps in line
- 3 'tails' or overlaps with a enclosed area any ruled lines

no cells drawn **AND** only one field of view **AND** with at least one line folded or wavy or if no folds / wave but at least one enclosed area;

Additional guidance **Ignore** (folds) enclosed areas within layers

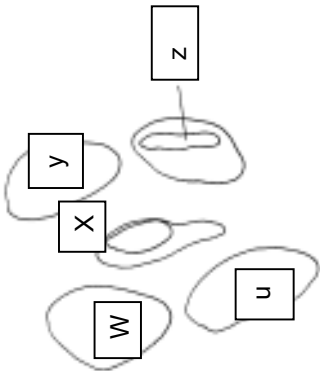

drawn at least five ridges/peaks/furrows/folds/waves in one line;

at least three folded or wavy lines **OR** drawn (spaces in innermost layer) as irregular (enclosed) areas **OR** one large enclosed area drawn with at least two lines;

correct label **D** with label line to **EITHER** between two folded or wavy lines or touching one of folded or wavy lines **OR** if enclosed area with two lines then inside this layer or to outer line;

Additional guidance **R** any other label
R any label within drawn lines

Page 10	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

(b) (i)	[4]
PDO layout 1	<p>[1] no shading AND largest nucleus more than 30 mm at longest point AND (clear, sharp, unbroken lines on outer membranes only) Must have three or more hand drawn enclosed areas R if</p> <ul style="list-style-type: none"> drawn over the print of question any line 1mm or thicker or ruled any feathery or broken/dashed line any 'tails' or overlaps or gaps if three or fewer enclosed areas 2 'tails' or overlaps or gaps if four or five enclosed areas <p>[1] <u>five</u> whole nuclei drawn as in Fig. 2.1;</p> <p>Additional guidance R double line for outer boundary/nuclear membrane R additional diagrammatic organelles or chromosomes</p> <p>[1] two nuclei are drawn with nucleolus (in nuclei shown by x, y, or z in guidance diagram below) ignore contents of u, w, and y</p> <p>guidance diagram:</p> 
MMO collection 2	
MMO decision 1	<p>[1] correct label with label line to <u>one nucleolus</u> in x, y or z only;</p> <p>Additional guidance R if</p> <ul style="list-style-type: none"> if label more than one any label is biologically incorrect e.g. from incorrect organ or cell organelles such as Golgi or mitochondria any label within or overlapping drawn nucleus

Page 11	Mark Scheme: Teachers' version	Syllabus	Paper
	GCE AS/A LEVEL – October/November 2011	9700	33

	(ii)	[3]
MMO collection 1	[1]	measures line L correctly in mm; 14 or 14.5 or 15 or 15.5 or 16 or 16.5 mm; Additional guidance A 1.4 or 1.45 or 1.5 or 1.55 or 1.6 or 1.65 <u>cm</u> Must have units somewhere Ignore use of metres
	[1]	shows conversion mm to μm by multiplication $\times 1000$ or 10^3 OR cm to μm by multiplication $\times 10\,000$ or 10^4 ; Additional guidance A conversion after division / incorrect measurement as long as units correct with correct conversion R if metres anywhere R if no units
PDO display 2	[1]	shows division of a number;
		Additional guidance ecf if measurement or conversion incorrect
