# **GCSE MARKING SCHEME**

---

**SUMMER 2023**

**GCSE  
BIOLOGY - UNIT 1  
3400U10-1 AND 3400UA0-1**

## **INTRODUCTION**

This marking scheme was used by WJEC for the 2023 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

**WJEC GCSE BIOLOGY – UNIT 1****SUMMER 2023 MARK SCHEME****GENERAL INSTRUCTIONS****Recording of marks**

Examiners must mark in red ink.

One tick must equate to one mark (apart from the questions where a level of response mark scheme is applied). Question totals should be written in the box at the end of the question.

Question totals should be entered onto the grid on the front cover and these should be added to give the script total for each candidate.

**Marking rules**

All work should be seen to have been marked.

Marking schemes will indicate when explicit working is deemed to be a necessary part of a correct answer. Crossed out responses not replaced should be marked.

Credit will be given for correct and relevant alternative responses which are not recorded in the mark scheme.

**Extended response question**

A level of response mark scheme is used. Before applying the mark scheme please read through the whole answer from start to finish. Firstly, decide which level descriptor matches best with the candidate's response: remember that you should be considering the overall quality of the response. Then decide which mark to award within the level. Award the higher mark in the level if there is a good match with both the content statements and the communication statements.

**Marking abbreviations**

The following may be used in marking schemes or in the marking of scripts to indicate reasons for the marks awarded.

cao = correct answer only

ecf = error carried forward

bod = benefit of doubt

## FOUNDATION TIER

Question			Marking details	Marks available					
				AO1	AO2	AO3	Total	Maths	Prac
1	(a)	(i)	Grass(es) / producers		1		1		
		(ii)	Owls (1) Feed on {secondary consumers / carnivores}/ fourth trophic level (1)	1	1		2		
	(b)	(i)	shrew 900 owl 350 insect 12000  3 correct for 2 marks 1/2 correct for 1 mark 0 correct 0 marks		2		2	2	
		(ii)	All four names and numbers in the correct position Owl 1 Shrew 90 Insect 3000 Grasses 10000		1		1		
		(iii)	Energy is lost in {respiration /waste materials/ heat} (1) Each layer has fewer (numbers) than the one before/ the numbers get smaller as you go up the pyramid (1)	1		1	2		
			<b>Question 1</b>	<b>2</b>	<b>5</b>	<b>1</b>	<b>8</b>	<b>2</b>	<b>0</b>

Question				Marking details	Marks available

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
6	(a)			{Control the <u>rate</u> / <u>speed</u> up} reactions.	1			1		
	(b)	(i)	I	Figs/ 1 + kiwi/3 + pineapple/5			1	1		1
			II	(Gelatine/fruit/it) does not {solidify /set}/ (gelatine/ fruit/ it) remains liquid} (1) {Protease/ enzyme} is present (1) Accept reverse argument for both points			2	2		2
	(ii)		I	Peaches were boiled (1) So enzymes denatured (1)	1		1	2		2
			II	{Repeat/ use} with fresh (peaches)			1	1		1
	(iii)			Any value 25 °C or above		1		1		1
	(iv)			<b>Any one (×1) from:</b> Volume of (liquid) gelatine {Mass/ weight} of fruit Time (in refrigerator) Age of fruit			1	1		1
					<b>Question 6</b>	<b>2</b>	<b>1</b>	<b>6</b>	<b>9</b>	<b>0</b>

Question 7 CARBON CYCLE		Marking details		Marks available					
				AO1	AO2	AO3	Total	Maths	Prac
7	(a)		<p><b>Indicative content</b></p> <p><b><u>Carbon (dioxide) in the air</u></b></p> <p>A. {Photosynthesis/ plants} {use CO<sub>2</sub>/reduces CO<sub>2</sub> level in the air/ owtte}</p> <p>B. {Respiration / animals breathing} {releases/produces/ adds} CO<sub>2</sub> (to the air)</p> <p>C. (Use of) fossil fuels.</p> <p>D. (Burning/ use of fossil fuels) {produces/releases/adds} CO<sub>2</sub></p> <p>E. {Respiration / combustion} {causes global warning /increases temperature}.</p> <p><b><u>Measures to reduce carbon dioxide</u></b></p> <p>F. {Reduce /avoid} building on {green land/farmland}/ deforestation</p> <p>G. Plant more trees/ nature reserves /protect green spaces/</p> <p>H. Less use of fossil fuel /reduce use of {cars/ transport }/use electric vehicles/ walk/ cycle/ fewer journeys/</p> <p>I. More use of {renewable /eco-friendly methods of energy supply} / wind farms/solar panels / tidal power /biofuels</p> <p><b>5-6 marks</b> At least 7 points from indicative content. Include suggestion for reducing level of carbon dioxide. <i>There is a sustained line of reasoning which is coherent, relevant, substantiated and logically structured. The candidate uses appropriate scientific terminology and accurate spelling, punctuation and grammar.</i></p>	4	1	1	6		

Question 7 CARBON CYCLE				Marking details	Marks available						
					AO1	AO2	AO3	Total	Maths	Prac	
				<p><b>3-4 marks</b> At least 4 points from indicative content <i>There is a line of reasoning which is partially coherent, largely relevant, supported by some evidence and with some structure. The candidate uses mainly appropriate scientific terminology and some accurate spelling, punctuation and grammar.</i></p> <p><b>1-2 marks</b> At least 1 point from indicative content <i>There is a basic line of reasoning which is not coherent, largely irrelevant, supported by limited evidence and with very little structure. The candidate uses limited scientific terminology and inaccuracies in spelling, punctuation and grammar.</i></p> <p><b>0 marks</b> <i>No attempt made or no response worthy of credit.</i></p>							
				<b>Question 7</b>	<b>4</b>	<b>1</b>	<b>1</b>	<b>6</b>	<b>0</b>	<b>0</b>	

Question			Marking details	Marks available							
				AO1	AO2	AO3	Total	Maths	Prac		
8/1	(a)		{Increased/ larger} surface area (1) Must be comparative	1			1				
	(b)	(i)		Arrow in correct position (1) Labelled xylem (1)	2			2			
		(ii)	I		X – guard (cells) (1)	1			1		
			II		(Stoma) {open / close} (to control water loss) (1) (Cuticle) –reduces water loss/ waterproof (1)	2			2		
		(c)	(i)		Transpiration	1			1		
	(ii)			Same {time / distance of fan from plant/ temperature/ humidity/ light (intensity)/ direction of fan}			1	1		1	
	(iii)			To prevent <u>evaporation</u> (from the surface of the water).		1		1		1	
	(iv)		I		(Increased speeds give an) increase in {loss of water/ evaporation/ transpiration} (1) Recognition of change in gradient of graph after initial rise (1)			2	2		2
			II		Line on graph going up but at a lower level of water loss.	1			1		
				<b>Question 8/1</b>	<b>8</b>	<b>1</b>	<b>3</b>	<b>12</b>	<b>0</b>	<b>5</b>	

Question 9/2			Marking details	Marks available					
				AO1	AO2	AO3	Total	Maths	Prac
9/2	(a)	(i)	95.6 or 96 kg/year = 2 marks If incorrect award 1 mark for (25 - 1.1 =) 23.9 or 24 100-4.4 95		2		2	2	
		(ii)	1350		1		1	1	
	(b)	(i)	<b>Any one (×1) from:</b> {Reduced costs / cheaper} (for farmer) (1) {Better/ easier} monitoring (1) Controlled conditions (1) Less land used (1) {Faster/ more} {growth/ yield/ meat production} (1) Reject reference to eggs Ignore reference to financial gain		1		1		
		(ii)	(Disposal of) waste			1	1		

Question 9/2				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
	(c)			<p><b>Any three (x1) from</b></p> <ul style="list-style-type: none"> <li>• {Reduced growth/ reduced mass/ underdevelopment} of {heart/ organs}/ smaller {heart/organs}/ Use of comparative data (1)</li> <li>• {Reduced growth/ reduced mass/ underdevelopment} of lungs/ smaller lungs/ Use of comparative data (1)</li> <li>• {Reduced growth/ reduced mass/ underdevelopment} of liver/ smaller liver/ Use of comparative data (1)</li> <li>• Reduced strength of bones/ bone density is low/ worse bone quality/ Use of comparative data (1)</li> <li>• More broken bones/ Use of comparative data (1)</li> <li>• Over-crowding / unable to move / behaviour restrictions (1)</li> </ul>		3		3		
				<b>Question 9/2</b>	<b>0</b>	<b>7</b>	<b>1</b>	<b>8</b>	<b>3</b>	<b>0</b>
