

19. Nitrogen compounds

19.2 Nitriles and hydroxynitriles

Paper 2

Question Paper

- 1 The reaction sequence shows how ethene, C_2H_4 , can be converted into other organic molecules.

- (a) Complete the table to give
- the name of the reaction mechanisms of reactions 1 and 6
 - the reagents and conditions required for reactions 1, 2 and 6.

reaction	name of mechanism	name of reagents and conditions
1		
2		
6
