## COMPUTER SCIENCE

Paper 2 Problem-solving and Programming

No additional materials are needed.

This material should be given to the relevant teachers and candidates as soon as it has been received at the centre.

## INSTRUCTIONS

- You should use this material in preparation for the examination.
- You should attempt the practical programming tasks using your chosen high-level, procedural programming language.

Your preparation for the examination should include attempting the following practical tasks by writing and testing a program or programs.
A school snack shop sells the following items:

| Category | Item code | Description | Price (\$) | Healthy? |
| :--- | :--- | :--- | ---: | :---: |
| Fruit | FR1 | Apple | 1.00 | Yes |
| Fruit | FR2 | Banana | 1.25 | Yes |
| Fruit | FR3 | Orange | 1.00 | Yes |
| Fruit | FR4 | Peach | 1.30 | Yes |
| Sandwich | SN1 | Cheese | 1.75 | Yes |
| Sandwich | SN2 | Cheese and Tomato | 2.20 | Yes |
| Sandwich | SN3 | Chicken | 2.00 | Yes |
| Sandwich | SN4 | Chicken Salad | 2.35 | Yes |
| Sandwich | SN5 | Salad (Vegetarian) | 2.00 | Yes |
| Crisps | CR1 | Salted | 1.00 | No |
| Crisps | CR2 | Cheese and Onion | 1.00 | No |
| Crisps | CR3 | Barbecue | 1.00 | No |
| Crisps | CR4 | Prawn Cocktail | 1.00 | No |
| Confectionery | CN1 | Biscuits | 0.95 | No |
| Confectionery | CN2 | Chocolate Bar | 1.05 | No |
| Confectionery | CN3 | Toffee and Chocolate Bar | 1.25 | No |
| Confectionery | CN4 | Chocolate Wafers | 1.30 | No |
| Drink | DR1 | Cola | 1.20 | No |
| Drink | DR2 | Lemon and Lime Soda | 1.20 | No |
| Drink | DR3 | Orange Soda | 1.20 | No |
| Drink | DR4 | Orange Juice | 1.50 | Yes |
| Drink | DR5 | Apple Juice | 1.50 | Yes |

Write and test a program or programs for this snack shop.

- Your program or programs must include appropriate prompts for the entry of data; data must be validated on entry.
- Error messages and other output need to be set out clearly and understandably.
- All arrays, variables, constants and other identifiers must have meaningful names.

You will need to complete these three tasks. Each task must be fully tested.
Task 1 - Setting up the system to show the items for sale and to allow items to be selected
Write a program to:

- use arrays to store the item code, description, price and whether or not the item is healthy
- allow a customer to choose an item to purchase
- output the description of each chosen item, its price and whether or not it is healthy
- allow the customer to choose additional items until they decide to stop
- calculate and output the total price of the chosen items.

Task 2 - Specifying quantities and introducing restrictions
Extend Task 1 to:

- allow the customer to input the quantity of each item they would like to purchase
- count the number of healthy and unhealthy items chosen by the customer. For example, two apples and a peach count as three healthy items
- check that the customer has chosen at least one healthy item for every two unhealthy items. If so, allow the customer to make the purchase. Otherwise, the purchase cannot proceed, a message is output to say the purchase is cancelled and the customer has to start again.
Task 3 - Offering discounts
Extend the program to:
- either apply a $10 \%$ discount to the total price, when purchasing both healthy and unhealthy items, only if the number of healthy items matches or exceeds the number of unhealthy items
- or apply a $20 \%$ discount to the total price if all the items purchased are healthy items
- calculate then output the new total price and the amount of money saved.

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (UCLES) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced online in the Cambridge Assessment International Education Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download at www.cambridgeinternational.org after the live examination series.

Cambridge Assessment International Education is part of the Cambridge Assessment Group. Cambridge Assessment is the brand name of the University of Cambridge Local Examinations Syndicate (UCLES), which itself is a department of the University of Cambridge.
