Specifications for two different devices are shown in **Figure 5**.

Discuss the advantages and disadvantages of **Device A** compared to **Device B**.

Your answer should explain the impact each advantage/disadvantage will have on the operation of the device.

You should assume that any aspects of the specifications **not** mentioned in **Figure 5** are the same for both devices.

[12 marks]

Figure 5

| Device A                                  | Device B                                  |
|---|---|
| Quad (4) core 1.6 GHz CPU with 8 MB cache | Dual (2) core 3.9 GHz CPU with 2 MB cache |
| 16 GB RAM                                 | 4 GB RAM                                  |
| 2 TB Hard Disk Drive (HDD)                | 250 GB Solid State Drive (SSD)            |
