## Section A

Answer this question.

### 1 The appreciation of the Zambian Kwacha

Zambia's currency, the Kwacha, experienced a significant appreciation in the year up to March 2006. This is shown in Fig.1. Factors that influenced the exchange rate at this time were an improvement in Zambia's export performance, a reduction in the foreign debt owed by Zambia, an increase in foreign aid received by Zambia and an inflow of foreign investment. The exchange rate is vitally important for Zambia because its exports of copper, tobacco, maize and cotton are priced in US\$ but its costs are paid in Zambian Kwacha.
