Pearson Edexcel International GCSE in

Economics

(4EC1/01)

Paper 1: Microeconomics and

Business Economics

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications come from Pearson, the world's leading learning company. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information, please visit our website at www.edexcel.com.

Our website subject pages hold useful resources, support material and live feeds from our subject advisors giving you access to a portal of information. If you have any subject specific questions about this specification that require the help of a subject specialist, you may find our Ask The Expert email service helpful.

www.edexcel.com/contactus

Pearson: helping people progress, everywhere

Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world.

We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at:

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the **candidate's response is not worthy of credit according to the mark scheme.**
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the **mark scheme to a candidate's response, the** team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question number	Which one of the following might have caused the movement from PPF ₁ to PPF ₂ in Figure 1 above? Answer	Mark
1(a)	<p style="text-align: center;">AO2 1 mark</p> <p>The only correct answer is: B Positive economic growth</p> <p>A is not correct because this would shift the PPF inwards C is not correct because it does not show long-run average costs increasing with a rise in output D is not correct because it does not show long-run average costs decreasing with a rise in output</p>	(1)

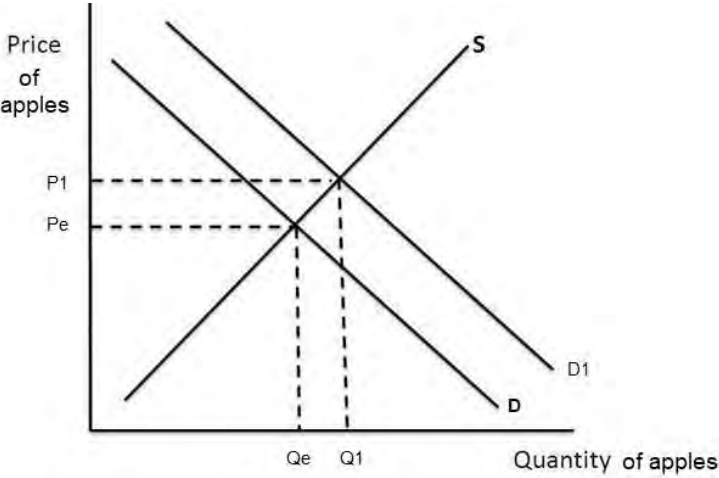

Question number	A firm has total costs of \$10 000 and sells each item at a price of \$100. It sells 200 items. What is the profit or loss for the firm? Answer	Mark
1(b)	<p style="text-align: center;">AO2 1 mark</p> <p>The only correct answer is: B \$10 000 profit</p> <p>A is not correct because total costs have not been deducted C is not correct because a profit would be made and not a loss D is not correct because this is \$10 000 - \$20 000</p>	(1)

Question number	What is meant by the term privatisation? Answer	Mark
1(c)	<p style="text-align: center;">AO1 2 marks</p> <p>Award 1 mark for reference to moving from the public sector and 1 mark for reference to transfer of ownership to the private sector</p> <p>The government sells/transfers an organisation (in the public sector) (1) to the private sector (1)</p> <p>Accept any other appropriate response</p>	(2)

Question number	State one reason why the government regulates competition in the economy. Answer	Mark
1(d)	<p style="text-align: center;">AO1 1 mark</p> <p>Award 1 mark for a correct reason</p> <ul style="list-style-type: none"> • To promote competition • To limit monopoly power • To protect consumer interests • To control mergers and takeovers <p>Accept any other appropriate response</p>	(1)

Question number	Define the term congestion. Answer	Mark
1(e)	<p style="text-align: center;">AO1 1 mark</p> <p>Award 1 mark for a correct definition</p> <p>A situation where a place is crowded</p> <p>Accept any other appropriate response</p>	(1)

Question number	Calculate the total variable costs for the firm each month. You are advised to show your working. Answer	Mark
1(f)	<p style="text-align: center;">AO2 2 marks</p> <p>Award 1 mark for showing correct calculation €16 500 + €95 000 (1)</p> <p>Award 1 mark for correct total variable costs €111 500 (1)</p> <p>Award 2 marks if total variable costs per month are correctly calculated as €111 500, even if no calculations are shown</p> <p>Award 1 mark for 111 500 with or without calculations shown</p> <p>Do not award marks for a formula</p>	(2)

Question number	Using the diagram below, draw the likely effects on the market for apples following an increase in the advertising of apples. Label the new curve, the new equilibrium price and the new equilibrium quantity. Answer	Mark
1(g)	<p style="text-align: center;">AO2 3 marks</p> <p>Award 1 mark for rightward shift of demand, labelled Award 1 mark for higher equilibrium price, labelled Award 1 mark for higher equilibrium quantity, labelled</p> 	(3)

Question number	Explain one advantage of using division of labour for the firm. Answer	Mark
1(h)	<p style="text-align: center;">AO2 3 marks</p> <p>Award 1 mark for identifying an advantage Award 1 mark for developing the response Award 1 mark for the response being in context</p> <ul style="list-style-type: none"> • Production is more efficient (1) because workers at the factory will not need to change tools repeatedly to do a different task (1) meaning the quantity of tennis balls produced could increase (1) • Workers specialising in one task become better at that task (1) making them more productive (1) and helping to lower the average costs of producing each tennis ball (1) <p>Accept any other appropriate response</p>	(3)

Question number	<p>With reference to the data above and your knowledge of economics, analyse how all four factors of production might be used to produce drinking water in the Canary Islands.</p> <p>Indicative content</p>
1(i)	<p style="text-align: center;">AO2 (3 marks)/AO3 (3 marks)</p> <p>AO2 and AO3</p> <ul style="list-style-type: none"> • The four factors of production are land, labour, capital and enterprise • Sea water is a natural resource, which is land • The salt is removed by filtering the water through machines in order to make the water drinkable, which is capital • The process of ensuring all the salt and impurities have been removed from the water is done by labour (production workers) • Enterprise combines the other factors of production to make sure the water gets to the consumer as a consumable product • Thus, all four factors of production may be used to produce drinking water as, without any one of them the process would not be completed as efficiently

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–2	<ul style="list-style-type: none"> • Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).
Level 2	3–4	<ul style="list-style-type: none"> • Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).
Level 3	5–6	<ul style="list-style-type: none"> • Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Question number	Which one of the following would occur when there are unsold goods in a market? Answer	Mark
2(a)	<p style="text-align: center;">AO1 1 mark</p> <p>The only correct answer is: B Excess supply</p> <p>A is not correct because this would lead to a shortage of goods in the market C is not correct because lower prices may be needed to sell unsold goods D is not correct because this would not result from unsold goods in the market</p>	(1)

Question number	Which one of the following statements is correct? Answer	Mark
2(b)	<p style="text-align: center;">AO1 1 mark</p> <p>The only correct answer is: C Quantity supplied will fall when price falls</p> <p>A is not correct because this is only true when supply is fixed B is not correct because supply is affected by changes in price D is not correct because the supply curve does not shift due to a price change</p>	(1)

Question number	State the name for price elasticity of demand (PED) with a numerical value of -1. Answer	Mark
2(c)	<p style="text-align: center;">AO1 1 mark</p> <p>Award 1 mark for the correct type of price elasticity of demand (PED)</p> <ul style="list-style-type: none"> • Unitary 	(1)

Question number	Calculate, to two decimal places, the price elasticity of supply (PES) for shoes. You are advised to show your working. Answer	Mark
2(d)	<p style="text-align: center;">AO2 2 marks</p> <p>Award 1 mark for showing correct calculation -2.7%/-1.9% (1)</p> <p>Award 1 mark for correct PES 1.42 (1)</p> <p>Award 2 marks if PES is correctly calculated as 1.42, even if no calculations are shown</p> <p>Do not award marks for a formula</p>	(2)

Question number	Define the term substitute. Answer	Mark
2(e)	<p style="text-align: center;">AO1 1 mark</p> <p>Award 1 mark for a correct definition</p> <ul style="list-style-type: none"> • An alternative bought/produced in place of something else <p>Accept any other appropriate response</p>	(1)

Question number	Describe one reason why a firm might stay small. Answer	Mark
2(f)	<p style="text-align: center;">AO1 2 marks</p> <p>Award 1 mark for reference to the reason and 1 mark for development of the reason</p> <ul style="list-style-type: none"> • It may already be making enough money (1) to satisfy the needs of the owner (1) • The size of the market may be small (1) which means expansion is difficult (1) <p>Accept any other appropriate response</p>	(2)

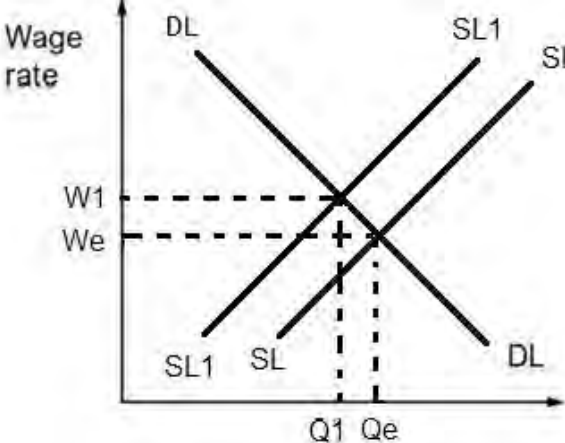

Question number	Explain one advantage of positive reviews for the owners of food stalls in Taba. Answer	Mark
2(g)	<p style="text-align: center;">AO2 3 marks</p> <p>Award 1 mark for identifying a relevant advantage Award 1 mark for developing the advantage Award 1 mark for the advantage being in context</p> <ul style="list-style-type: none"> • Stalls offering quality food will gain more customers (1) because customers will be attracted by the positive reviews (1) instead of buying from competitors (1) • Demand will increase for food from these stalls (1) leading to an increase in revenue (1) which will increase profit for the food stall owners (1) <p>Accept any other appropriate response</p>	(3)

Question number	<p>With reference to the data above and your knowledge of economics, assess whether a monopoly such as PKP is likely to benefit consumers.</p> <p>Indicative content</p>
2(h)	<p style="text-align: center;">AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)</p> <p>AO2 and AO3</p> <ul style="list-style-type: none"> • A monopoly is a market structure with one dominant seller in the market • PKP is the main rail carrier for passenger and freight services in Poland, making it a monopoly • Due to its dominance of the rail network in Poland, PKP may be able to take advantage of economies of scale • This means that the firm may have low (long-run) average costs as a result of purchasing or technical economies of scale • Therefore, it is possible that PKP could decide to pass the lower costs on to its passengers in the form of lower prices • PKP may also be more efficient because it is not duplicating resources, such as the railway tracks, used by competitors • This may have helped PKP to meet the transport needs of the state; one of its aims • PKP may also be able to innovate due to its lower (long-run) average costs, meaning it may be able to provide a high-quality service on its trains <p>AO4</p> <ul style="list-style-type: none"> • However, as it has few competitors, rail passengers and those transporting freight have little choice but to use PKP's service • This means PKP can be a price maker for its train services, which is not in the interest of its consumers • There is restricted choice in the market, such as which routes a passenger can take. This is because there is only one main supplier • PKP may be inefficient because it does not need to keep its costs low in order to compete with limited competition • It may be that PKP does not have any incentive to spend money on product innovation and some areas may not have access to train travel

Level	Mark	Descriptor
	0	No rewardable material.
Level 1	1–3	<ul style="list-style-type: none"> • Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2). • Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3). • Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).
Level 2	4–6	<ul style="list-style-type: none"> • Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3). • Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).
Level 3	7–9	<ul style="list-style-type: none"> • Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2). • Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3). • Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).

Question number	<p>Income elasticity of demand (YED) for a product is -0.43 and the price elasticity of demand (PED) for the same product is -0.27.</p> <p>The data above shows that the product is</p> <p>Answer</p>	Mark
3(a)	<p style="text-align: center;">AO1 1 mark</p> <p>The only correct answer is:</p> <p>A an inferior good and demand is price inelastic</p> <p>B is not correct because PED is less than -1, not greater than -1</p> <p>C is not correct because YED is negative</p> <p>D is not correct because the PED would need to be greater than -1</p>	(1)

Question number	<p>The formula for social benefits is</p> <p>Answer</p>	Mark
3(b)	<p style="text-align: center;">AO1 1 mark</p> <p>The only correct answer is:</p> <p>C private benefits + external benefits</p> <p>A is not correct because it does not include any third-party effects</p> <p>B is not correct because it includes costs</p> <p>D is not correct because this is not a formula used to calculate social benefits</p>	(1)

Question number	<p>On the diagram below, draw the effects of a decrease in the retirement age on the labour market in a country. Label the new curve, the new equilibrium wage rate and the new equilibrium quantity of workers employed.</p> <p>Answer</p>	Mark
3(c)	<p style="text-align: center;">AO2 3 marks</p> <p>Award 1 mark for leftward shift of labour supply, labelled Award 1 mark for higher equilibrium wage rate, labelled Award 1 mark for lower equilibrium quantity of workers employed, labelled</p>  <p>The diagram is a labor market graph with 'Wage rate' on the vertical axis and 'Quantity of workers employed' on the horizontal axis. It features a downward-sloping demand curve labeled 'DL'. There are two upward-sloping supply curves: the original supply curve 'SL' and a new supply curve 'SL1' shifted to the left. The initial equilibrium is at the intersection of 'DL' and 'SL', corresponding to wage rate 'We' and quantity 'Qe'. The new equilibrium is at the intersection of 'DL' and 'SL1', corresponding to a higher wage rate 'W1' and a lower quantity 'Q1'. Dashed lines indicate these equilibrium points on the axes.</p>	(3)

Question number	With reference to the data above and your knowledge of economics, analyse why some people may ignore the negative impacts of spending a lot of time using a mobile phone. Indicative content
3(d)	<p style="text-align: center;">AO2 (3 marks)/AO3 (3 marks)</p> <p>AO2 and AO3</p> <ul style="list-style-type: none"> • Consumers are not always good at calculating what is or is not good for them • Therefore, the mass of information and facilities available on a mobile phone can be difficult to resist • This is also true due to the habit many people have developed to use their mobile phone for so many things in daily life • Developing such a habit of reaching for the phone for a wide variety of reasons can reduce a person's ability to make rational decisions • When so many other people spend so much time on their phone, this behaviour can influence others • Therefore, making it difficult to maximise their benefit regarding use of mobile phones

Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).

Question number	<p>With reference to the data above and your knowledge of economics, evaluate the effectiveness of government regulations in dealing with externalities such as air pollution in Greater Manchester.</p> <p>Indicative content</p>
4(c)	<p style="text-align: center;">AO2 (4 marks)/AO3 (4 marks)/AO4 (4 marks)</p> <p>AO2 and AO3</p> <ul style="list-style-type: none"> • Government regulation is put in place to reduce the external costs of production and consumption • Drivers of polluting vehicles are less likely to drive in the region, or will need to replace their vehicles when faced with a daily charge of between £7.50 and £60.00 • This is likely to reduce pollution and the negative impact on the environment, therefore reducing negative externalities • The scheme would also raise money for the government, meaning more funding could be available for schemes to benefit the environment • The 800km² covered by the CAZ is a very large area, meaning the 1,000+ annual deaths will hopefully be reduced as a result of the scheme • More awareness of the problems caused by vehicle emissions could be gained through adoption of the scheme, leading to better prevention of pollution in the future <p>AO4</p> <ul style="list-style-type: none"> • However, as the proposal will affect many small businesses in the area, their costs will increase considerably • This means that these firms may not be able to afford the tax, such as the ice-cream firm expects costs to rise by £29 000 a year, or to replace its vehicles and may need to pass the charges on to customers • Therefore, some firms may lose business if their customers are unwilling/unable to pay the higher prices • This could lead to firms needing to close down, potentially causing prices to rise for customers in the area anyway, if there is limited competition • It may depend on the value placed on clean air by firms driving the vehicles and by customers, as to whether higher prices will be paid • It may also depend on the profits/income of firms/customers, as to the impact of the charges and therefore whether negative externalities will actually be reduced • There may be better ways to reduce air pollution, such as encouraging people to walk short distances rather than drive
