Wednesday 14 June	2023	
Afternoon (Time: 1 hour 30 minutes)	Paper reference 4EC1/02	R
Economics Level 1/2 PAPER 2: Macroeconomic	s and the Global Economy	
You do not need any other material	S. Total I	Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer all questions.
- Answer the questions in the spaces provided
 - there may be more space than you need.
- Calculators may be used.
- You are advised to show all your working out with your answer clearly identified at the end of your solution.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
 - use this as a guide as to how much time to spend on each question.

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Turn over ▶

Answer ALL questions. Write your answers in the spaces provided.

Some questions must be answered with a cross in a box \boxtimes . If you change your mind about an answer, put a line through the box \boxtimes and then mark your new answer with a cross \boxtimes .

In 2021, the UK and Norway agreed to increase fishing quotas by 20% for 2022.

(f) Using the diagram below, draw the effects of the new quota on the equilibrium price and quantity of fish. Label the new curve, the new equilibrium price and new equilibrium quantity.

(3)

San Francisco, a city in the US, raises its own taxes and plans its own spending. It expects its budget to have a fiscal surplus for the first time since 1998. The city is expecting this surplus to be \$108m.

"Over the last two years, while we have invested heavily in key priorities like homelessness and mental health, we have also made smart budgeting decisions, and this surplus is a result of that work," said the Mayor of San Francisco.

The Mayor has not decided where to spend the surplus, but this week called for more funding for police and to improve public safety.

(

Figures from the Office for National Statistics (ONS) showed that the unemployment rate in the North East of England increased to 5.3% in the three months to the end of October 2021.

Output fell significantly in this area of England and business confidence was severely harmed. There was some positive news with the number of people claiming unemployment benefits in the North East of England falling by around 3,500 to 87,780.

The Tata Steel steelworks in IJmuiden, Netherlands, will have to meet tougher rules on pollution and will have extra checks to make sure it improves the air quality around the plant. These include reducing Tata Steel's current pollution permits and will require it to change some production processes.

The government made the decision following the publication of a report which concluded that dust in the IJmuiden region contained high levels of dangerous metals such as lead. An earlier report stated that air quality in the area was poor to inadequate.

Tata Steel in the Netherlands has a total workforce of 11,000 and indirectly provides work for thousands in the local economy.

(Source: https://www.dutchnews.nl/news/2021/12/tata-steel-faces-tougher-permit-rules-and-more-pollution-checks/)

effectiveness of using pollution permits to protect the environment of a country such as the Netherlands.				
such as the Netherlands.	(12)
