MARK SCHEME

Maximum Mark 50

---

**Specimen**

---

This document has **10** pages. Blank pages are indicated.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of responses required by a candidate as exemplified by the standardisation scripts

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**Literature in English specific marking instructions****Using the mark levels**

Use the generic mark bands to find the mark. Place the answer in a level first. Look for the 'best fit' of the answer into a level. An answer needs to show evidence of most but not necessarily ALL of the qualities described in a level, in order to be placed in that level. Then award a mark for the relative position of the answer within the level.

Candidates may address the question in many different ways. There is no one required answer or approach and do not penalise answers for leaving out a particular focus. Reward what is there, showing what you are rewarding in your comments.

Consider all bands and weigh up the performance as a whole in placing the answer in a level, then show that you have done so in the summative comment.

Each answer is marked out of 25, in accordance with the general marking criteria.

**Assessment objectives**

All assessment objectives are equally weighted, and all are considered in assessing each essay.

Each level in the marking criteria is divided into bands corresponding to the assessment objectives – AO1: Knowledge and understanding (K/U), AO2: Analysis (AN), AO3: Personal response (P), AO4: Communication (C).

**AO1 Knowledge and understanding**

Respond with understanding to literary texts in a variety of forms from different cultures with an appreciation of relevant contexts that illuminate readings of the texts

**AO2 Analysis**

Analyse ways in which writers' choices of language, form and structure shape meanings and effects

**AO3 Personal response**

Produce informed independent opinions and interpretations of literary texts

**AO4 Communication**

Communicate a relevant, structured and supported response appropriate to literary study.
