GCSE GEOGRAPHY

Paper 1 Living with the physical environment

Friday 17 May 2024

Afternoon

Time allowed: 1 hour 30 minutes

Materials

For this paper you must have:

- the OS map key insert (enclosed)
- a pencil
- a rubber
- a ruler.

You may use a calculator.

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.

Answer all questions in Section A and Section B.

Answer two questions in Section C.

Question 3 (Coasts), Question 4 (Rivers), Question 5 (Glacial)

For Examiner's Use				
Question	Mark			
1				
2				
3				
4				
5				
TOTAL				

- You must answer the questions in the spaces provided. Do not write outside the box around each
 page or on blank pages.
- If you need additional extra space for your answer(s), use the lined pages at the end of this book.
 Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- · The marks for questions are shown in brackets.
- The total number of marks available for this paper is 88.
- Spelling, punctuation, grammar and specialist terminology will be assessed in Question 01.11.

For the multiple-choice questions, shade the circle next to the correct answer.

CORRECT METHOD

WRONG METHODS | SO

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

Section A The challenge of natural hazards

Answer all questions in this section.

Question 1 The challenge of natural hazards

Study Figure 1, a map showing the extent of Arctic sea ice in September 2020 and the average extent of Arctic sea ice in September from 1981 to 2010.

Figure 1 Pacific Extent of sea September 20 Greenland Arctic Atlantic Ocean Ocean Russia Svalbard

0 1.1			e extent of Arcti			with the [2 marks]

Study **Figure 4**, a map showing tectonic plates and plate margins near South America.

Figure 4

Map not reproduced here due to third party copyright restrictions.

0 1.6 Using Figure 4, name the type of plate margin shown at X.

[1 mark]

Using Figure 4, which statement describes the movement of plates at X?Shade one circle only.

[1 mark]

- A The Nazca Plate is moving away from the South American Plate.
- **B** The Nazca Plate is moving under the South American Plate.
- C The South American Plate is moving alongside the Nazca Plate.
- **D** The South American Plate is moving under the Antarctic Plate.

0 1.8	Using Figure 4 , suggest one reason why new crust is formed at the location labelled Y .
	[1 mark
0 1.9	Explain why people continue to live in areas that are at risk from a tectonic hazard. [6 marks
	Extra space
	Question 1 continues on the next page

Study either Figure 5 or Figure 6.

Figure 5 – a photograph showing the effects of a recent volcanic eruption in La Palma

Figure 6 – a photograph showing the effects of a recent earthquake in the Philippines

		Do not write
0 1 . 1 0 u	Using Figure 5 or Figure 6, give two primary effects of either volcanic eruptions	outside the box

Section	В	The	living	g w	or	d
---------	---	-----	--------	-----	----	---

Section B. The living world						
	Answer all questions in this section.					
Question 2	Question 2 The living world					
0 2 . 1	Outline one reason why there are high levels of biodiversity in the tropical rainforest. [2 marks]					
0 2 . 2	State one threat to biodiversity in the tropical rainforest. [1 mark]					

Study **Figure 8**, a diagram showing how different plants and animals rely on each other as sources of food in the tropical rainforest.

0 2 . 3 Complete the following paragraph by choosing the correct words from the list below.

chain
consumer
increase
producer
reduce
web

Figure 8 is an example of a food _______. Orchid plants are an example of a _______. An increase in the number of jaguars is likely to _______ the number of monkeys.

[3 marks]

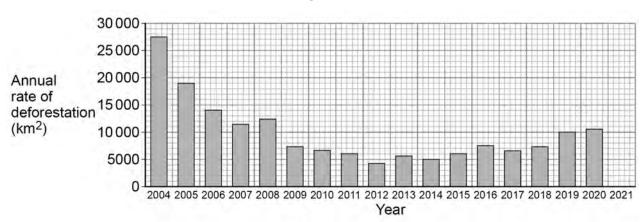

Figure 9 is a graph showing annual rates of deforestation in the Amazon rainforest, 2004–2021.

0 2.4 Complete **Figure 9** below using the following data.

[1 mark]

Year	Annual rate of deforestation (km²)
2021	13 000

Figure 9

0 2.5 Using Figure 9, which of the following statements is true?

Shade one circle only.

[1 mark]

- A Annual rate of deforestation has increased every year since 2010.
- **B** Annual rate of deforestation was highest in 2020.
- C Annual rate of deforestation was lowest in 2012.
- **D** Annual rate of deforestation was twice as high in 2005 as it was in 2020.

0 2.6	6 Suggest how deforestation in the tropical rainforest can be caused by a range of different activities. Use a case study.		
	different activities. Use a case study.	[6 marks]	
	Extra space		
0 2.7	Outline one way selective logging can be used to manage the rainforest sus	stainably. [1 mark]	
	Question 2 continues on the next page		

Study either **Figure 10** or **Figure 11**, photographs showing soils in a hot desert and cold environment.

Figure 10 - hot desert

0 2.8 Using either Figure 10 or Figure 11, suggest one way the soil can be affected by the climate in either a hot desert or a cold environment.

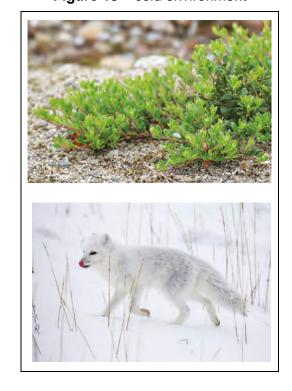

[1 mark]

Study **either Figure 12** or **Figure 13**, photographs showing plants and animals in hot desert and cold environments.

Figure 12 – hot desert

Figure 13 – cold environment

0 2 . 9	'Plants and animals need to have special adaptations to cope with extreme environments.'	
	Discuss this statement.	
	Use either Figure 12 or Figure 13 and your own understanding.	[9 marks]
	Tick (✓) the box to show which environment you have chosen.	
	Hot desert Cold environment	
	Extra space

End of Section B	

Section C Physical landscapes in the UK

Answer two questions from the following:

Question 3 (Coasts), Question 4 (Rivers), Question 5 (Glacial).

Question 3	Coastal	landscapes	in	the l	JK
------------	---------	------------	----	-------	----

0 3. 1 What does 'managed retreat' mean?

Shade one circle only.

[1 mark]

Α	Allowing the sea to flood or erode an area of low-value land.	0

В	Building up dune	s and increasing	g vegetation.	0

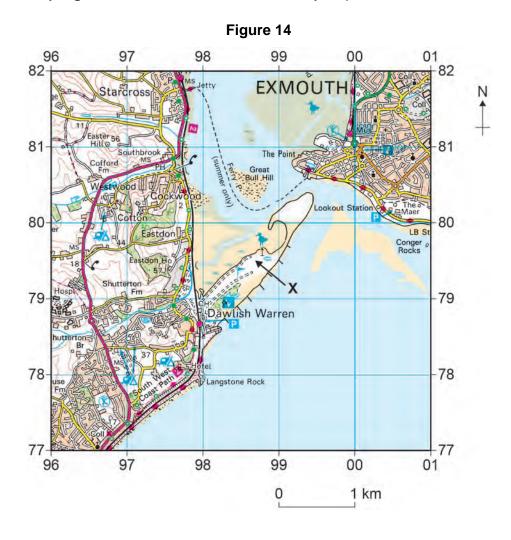

C Using concrete or artificial structures to defend against natural processes.
--

Working with natural processes to restore beaches.	0
--	---

Question 3 continues on the next page

Study Figure 14, a 1:50 000 Ordnance Survey map of Dawlish Warren, Devon.

0 3. 2 Using **Figure 14**, which **one** of the following grid squares shows a shingle beach? Shade **one** circle only.

[1 mark]

A 9779

0

B 0079

0

C 9777

0

D 9980

0

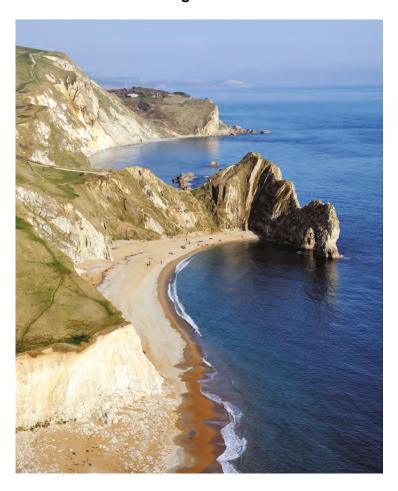

0 3. Using **Figure 14**, identify **one** method of hard engineering shown in grid square 9879. [1 mark]

		Do not write
0 3.4	The area labelled X shows a coastal spit.	outside the box
	Using Figure 14 , describe the size and shape of the spit. [2 marks]	
	Size	
	Shape	
0 3.5	You have studied a coastal management scheme in the UK.	
	Explain the effects of the scheme. [4 marks]	
	Extra space	
	Question 3 continues on the next page	

Study **Figure 15**, a photograph showing features of a coastal landscape.

Figure 15

0 3 . 6	Explain how coastal landscapes are formed by different processes.	
	Use Figure 15 and your own understanding.	[6 marks]

Extra space	

End of Question 3

Turn over for Question 4

Question 4 River landscapes in the UK

0 4 . 1 Which **one** of the following factors is most likely to cause river levels to rise quickly after heavy rainfall?

0

0

0

Shade one circle only.

[1 mark]

A Gentle slopes

Forested land

Permeable rocks

В

- ____
- D Steep slopes

Study **Figure 16**, a 1:50 000 Ordnance Survey map showing part of the River Witham in Lincolnshire.

Figure 16

07 80 09 10 73 Stainf Fiskerton Fer Stainfield Fen 72 71 gton Fen Delph Fm 70 70 08 09 10 11 07 0 1 km

		Do not write
0 4.2	Using Figure 16 , measure the distance along the Old River Witham between point X and point Y .	outside the box
	Shade one circle only. [1 mark]	
	A 1.2 km	
	B 2.0 km	
	C 2.8 km	
	D 3.6 km	
0 4 . 3	Using Figure 16 , identify one method of hard engineering shown in grid square 0970.	
	[1 mark]	
0 4 . 4	Using Figure 16 , describe the relief and drainage shown in grid square 0870. [2 marks]	
	Relief (height and shape of the land)	
	Drainage (water features)	
	Question 4 continues on the next page	

0 4.5	You have studied a flood management scheme in the UK.		
	Explain why the scheme was needed and how it works.	marks]	
	Extra space		

Study Figure 17, a photograph showing features of a floodplain.

0 4 . 6	Explain how river features are created by erosion and deposition.		Do not writ outside the box
	Use Figure 17 and your own understanding.	[6 marks]	
	Extra space		
			15

End of Question 4

Turn over for Question 5

[1 mark]

0

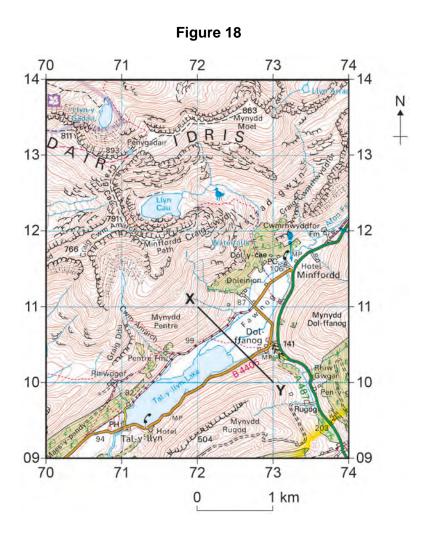

Question 5 Glacial landscapes in the UK

0 5 . 1 What does abrasion mean?

Shade one circle only.

- A Glacial ice moves in a circular motion causing hollows to form in the landscape.
- **B** Meltwater freezes beneath the ice and tears away pieces of loose rock.
- **C** Rocks trapped beneath the glacier scratch and smooth the bedrock underneath.
- **D** Water freezes in cracks and expands, causing the rock to break down.

Study Figure 18, a 1:50 000 Ordnance Survey map extract of part of Snowdonia.

5.2	Using Figure 18, which grid square shows part of a ribbon lake?	
	Shade one circle only.	[1 mark]
		[i iliai k]
	A 7013	
	B 7310	
	C 7109	
	D 7212	
0 5 . 3	Using Figure 18, name one landform of glacial erosion shown in grid squar	re 7112. [1 mark]
5 . 4	Using Figure 18 , describe the shape of the valley and measure the width of	f the
,	valley floor between points X and Y .	[2 marks]
	Shape of valley	
	Width of valley floor m	
	Question 5 continues on the next page	

2 9

		Do not write
0 5.5	You have studied a glaciated upland area in the UK.	outside the box
	Explain why this area attracts tourists.	
	[4 marks]	
	Extra space	

Study Figure 19, a diagram showing some features of glacial deposition.

Do not write outside the box

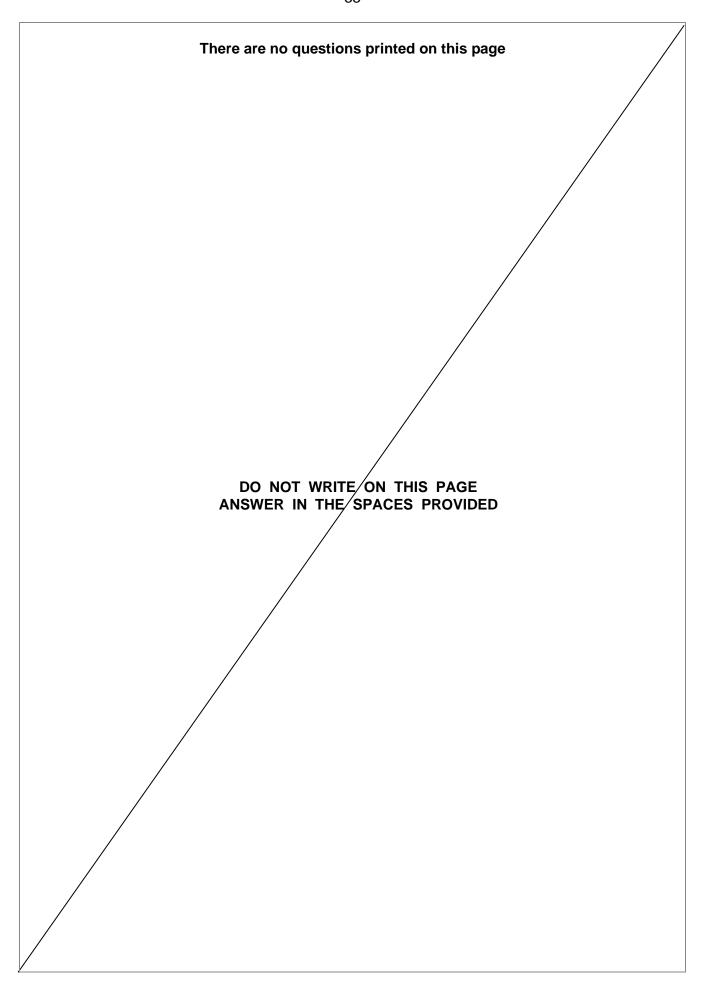

0 5 . 6	Explain the different ways that glacial material is transported and deposited.	
	Use Figure 19 and your own understanding.	[6 marks]
