Cambridge International General Certificate of Secondary Education (9-1)

GEOGRAPHY Paper 1	0	0976/12 ober/November 2018
CENTRE NUMBER	CANDIDATE NUMBER	
CANDIDATE NAME		

1 hour 45 minutes

Candidates answer on the Question Paper.

Additional Materials: Ruler

Calculator

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name in the spaces provided.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

Write your answer to each question in the space provided.

If additional space is required, you should use the lined pages at the end of this booklet. The question number(s) must be clearly shown.

Answer **three** questions, **one** from each section.

The Insert contains Figs. 3.2, 3.3 and 3.4 for Question 3, Fig. 5.2 for Question 5, and Figs. 6.2, 6.3, 6.4 and 6.5 for Question 6.

The Insert is **not** required by the Examiner.

Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

Definitions

MEDCs - More Economically Developed Countries

LEDCs - Less Economically Developed Countries

2

Section A

Answer **one** question from this section.

Study Figs. 1.1 and 1.2, which show population pyramids for two areas in India (an LEDC). Bihar (Fig. 1.1) is a rural area. Delhi (Fig. 1.2) is an urban area.

Population pyramid for Bihar

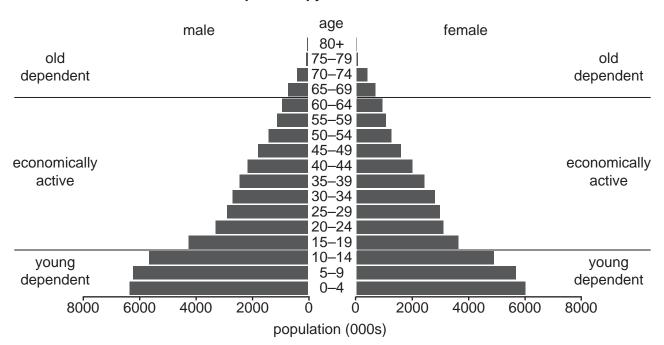

Fig. 1.1

Population pyramid for Delhi

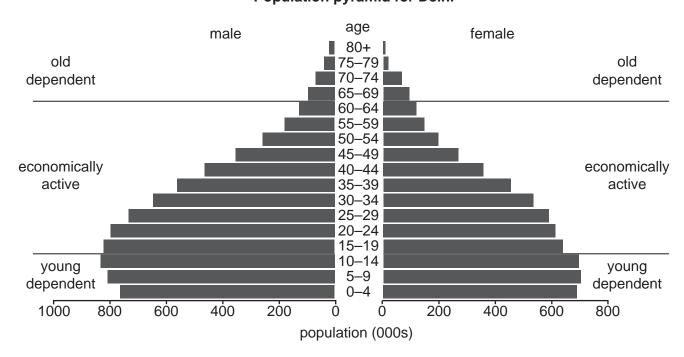

Fig. 1.2

(i)	How many people in Bihar are male aged 0 to 4?	
	thousands	[1]
(ii)	Describe two differences between the young dependent population in Bihar and Del	hi.
	1	
	2	
		[2]
(iii)	What evidence in Figs. 1.1 and 1.2 suggests that:	
	the birth rate is high in Bihar	
	rural depopulation has taken place in Bihar	
	there is gender imbalance in Delhi?	
		[3]
(iv)	Suggest reasons why birth rates are high in Bihar.	
		[4]

(b) Study Fig. 1.3, which predicts how the number of people in different age groups in India will change between 2000 and 2100.

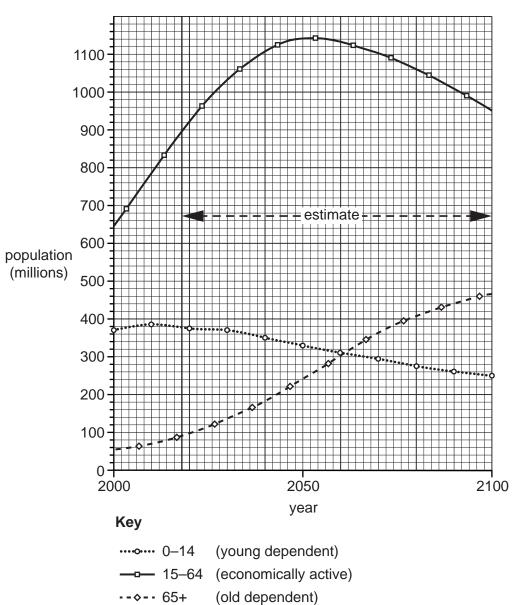

Fig. 1.3

(i)	Using Fig. 1.3 only , compare the proportion of dependent population to economically active population (the dependency ratio) of India in 2000 to that which is expected in 2050 . Use statistics in your answer.
	[3]
(ii)	Suggest reasons why the number of people aged 65 and over in India is expected to increase rapidly by 2100.
	[5]

(For a named country you have studied, describe the problems caused by an increase in it dependent population.

TURN PAGE FOR QUESTION 2

2 (a) Study Fig. 2.1, which shows data about five urban areas in Canada in 2015.

Urban area	Population growth rate (%)	Unemployed (%)	Crime index (0 = low 1 = high)	Doctors (per 1000 people)	Average household income (Canadian \$)
Calgary	6.56	4.0	0.32	2.46	125733
Halifax	5.86	6.3	0.42	3.74	79348
Montreal	4.17	9.2	0.5	2.34	61 159
Vancouver	10.39	6.0	0.52	2.43	81 066
Vernon	2.39	6.0	0.60	2.83	68 676

Fig. 2.1

(i) Tick the **two** features in the table below which are typical of an urban area.

	Tick (✓)
Large amounts of farmland and woodland	
Low population density	
Most areas are occupied by houses, shops, offices and factories	
National Parks	
Very little open space	

	[1]
Using Fig. 2.1 only , identify the urban area where:	
- crime is most likely	
 health care is likely to be the poorest. 	[2]
Identify the urban area listed in Fig. 2.1 which you think has the highest quality of life Justify your choice.	
Urban area	
	 crime is most likely health care is likely to be the poorest. Identify the urban area listed in Fig. 2.1 which you think has the highest quality of life. Justify your choice.

(iv)	The urban area of Vancouver has the fastest growing population. Suggest four different problems which could be faced by people living in Vancouver as a result of this rapid growth.			
	1			
	2			
	3			
	4			
	[4]			
	Planners want to create more roads and invest in new and improved public transport to take traffic away from Vernon's busiest roads. The Director of Engineering said, 'If nothing is done you will see an increase in traffic and an increase in accidents'. Fig. 2.2			
(i)	Explain why it is important to reduce traffic congestion in urban areas such as Vernon.			
	[3]			

(ii)	Suggest ways in which the public transport system might be developed in Vernon during the next thirty years to reduce traffic problems.
	[5]

(c)	For a named urban area you have studied, describe a change in land use and explain why this change in land use has caused conflict.
	Name of urban area
	[7]

Section B

Answer one question from this section.

3 (a) Study Fig. 3.1, which shows the Notsuke peninsula in Japan.

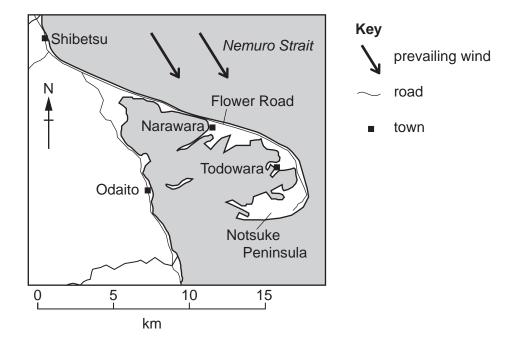

Fig. 3.1

(i) Which type of coastal landform is the Notsuke peninsula?Circle your answer in the list below.

		bay	headland	spit	[1]
(ii)	What is the distar	nce and direct	tion from Odaito to	Narawara?	
	Distance		km		
	Direction				[2]
(iii)	Suggest how the	Notsuke peni	nsula was formed	by coastal processes.	
					[3]

	(IV)	Explain how sand dunes are formed.
		[4]
(b)	Stu	dy Figs. 3.2, 3.3 and 3.4 (Insert), which are photographs taken on a coastline.
	(i)	Using information from Figs. 3.2, 3.3 and 3.4 only , identify three opportunities which coastlines provide for people.
		1
		2
		3
		[3]
	(ii)	Coastlines experience hazards such as coastal erosion and tropical storms. Describe the problems which may be faced by people as a result of these hazards.
		Coastal erosion
		Tropical storms
		[5]

TURN PAGE FOR QUESTION 4

4 (a) Study Fig. 4.1, which shows lines joining together places of equal rainfall (isohyets) in Namibia.

Key

— 500 mm isohyet

international boundary

Fig. 4.1

(i) A desert is defined as an area with less than 250 mm of rainfall.

On Fig. 4.1 **shade the area** of less than 250 mm of rainfall in Namibia. [1]

(ii) Describe **two** other characteristics of a hot desert climate.

2

(iii)	Explain why there is a large area of hot desert in Namibia by referring to the follogators shown in Fig. 4.1:	wing
	latitude	
	the prevailing winds	
	the ocean current.	
		[3]
(iv)	Explain why a hot desert may form near mountains (in a rain shadow).	
		[4]

(b) Study Fig. 4.2, which shows a food web in an area of low rainfall.

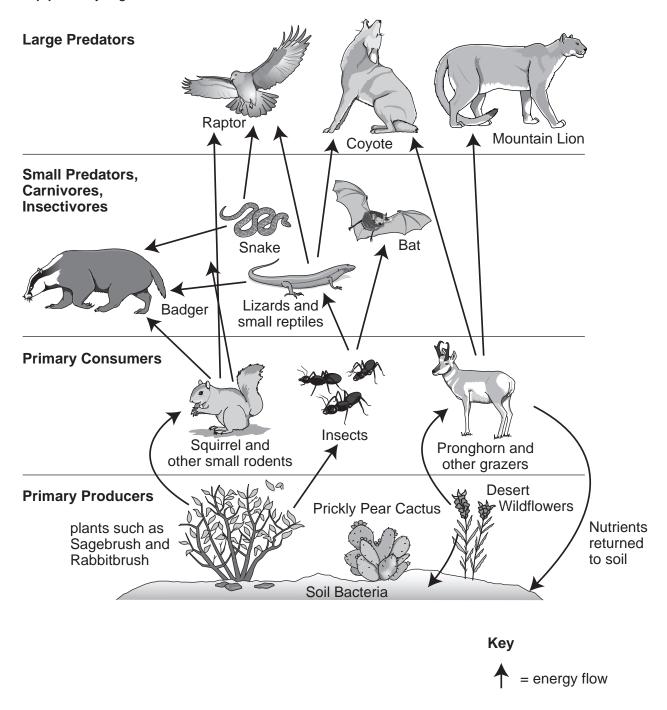

Fig. 4.2

(i)	Using Fig. 4.2, describe three different ways in which the natural vegetation, soil and wildlife are dependent on each other.
	1
	2
	3
(ii)	Describe the characteristics of vegetation which make it able to survive in areas where
	rainfall is low.
	[5]

(c)	For a named area of tropical rainforest you have studied, describe and explain the characteristics of the vegetation.	е
	Name of area of tropical rainforest

TURN PAGE FOR QUESTION 5

Section C

Answer one question from this section.

5 (a) Study Fig. 5.1, which shows information about changes in employment in Vietnam (an LEDC).

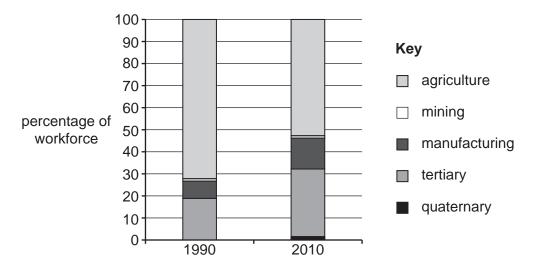

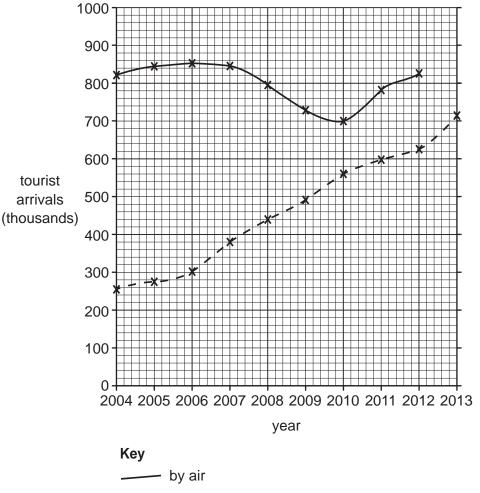

Fig. 5.1

iv)	Explain why the employment structure of a country changes as it develops.	
		ſΛ

Stu	dy Fig. 5.2 (Insert), which shows Danang City in Vietnam.
(i)	Describe the location of Hoa Khanh Industrial Park.
	[3]
(ii)	Industries located at Hoa Khanh Industrial Park include agriculture and seafood processing factories, packaging manufacturers and the assembly of high technology equipment.
	Using information from Fig. 5.2, suggest why industries such as these have been located at Hoa Khanh Industrial Park.
	[5]

)	For a country or area which you have studied, describe the importance of different methods of energy supply.
	Name of country or area
	[7
	[Total: 25]

(a) Study Fig. 6.1, which shows information about the number of international tourists arriving in 6 Corfu, a Greek island, between 2004 and 2013.

- on cruise ships

Fig. 6.1

(1)	what is meant by a <i>tourist?</i>
	[1]

(ii) Complete Fig. 6.1 by plotting the following information:

- 950 000 tourists arrived by air in 2013. [2]

	(iii)	and 2013. You should include statistics in your answer.
		[3]
(b)		dy Fig. 6.2 (Insert), a map showing Corfu, along with Figs. 6.3, 6.4 and 6.5 (Insert) which photographs taken in Corfu.
	(i)	Suggest three different ways in which people who live in Corfu might benefit from tourism.
		1
		2
		3
		[3]
	(ii)	Suggest two problems which tourism might cause for people who live in Corfu and two problems which it might cause for the local natural environment.
		People
		Natural environment
		[4]

m Figs. 6.2, 6.3, 6.4 and 6.5 only , explain why Corfu attracts tourists.	(iii)
re:	

,	For a named area where tourism is important, explain how the negative impacts of tourism are managed .
	Name of area
	[7]
