

**GCSE**

3110U30-1

**AUTUMN (15 November 2021 – 14 January 2022)**

**GEOGRAPHY**

**UNIT 3 (adapted paper)**

**FIELDWORK ENQUIRY**

**You must answer either Section A or Section B.**

**Section A (fieldwork investigating change over time)**

**or**

**Section B (fieldwork investigating sustainability)**

**You will be allowed a maximum of 1 hour and 15 minutes to answer the questions.**

### **ADDITIONAL MATERIALS**

Your answers should be completed in the separate answer booklet which also includes graph paper and plain paper.

You may also require a calculator, ruler, protractor, and coloured pencils.

### **INSTRUCTIONS TO CANDIDATES**

Use black ink or black ball-point pen. Do not use gel pen or correction fluid.

You may use a pencil for graphs and diagrams only.

Write your name, centre number and candidate number in the spaces at the top of the front page of the answer booklet.

Answer **either** Section A **or** Section B.

Start each answer with the number of the question.

### **INFORMATION FOR CANDIDATES**

You must work independently. You may complete your report in handwritten form or by using ICT. Graphs must be **hand drawn** using the graph paper provided at the back of the booklet.

You will have access to your fieldwork portfolio while you are writing your report.

Your ability to communicate and organise your ideas will be assessed in all questions that are worth 6 marks. Your ability to write accurately will be assessed in question **1(c) or 2(c)**.

The number of marks is given in brackets [ ] at the end of each question or part-question.

Answer **either** Section A (fieldwork investigating change over time) **or** Section B (fieldwork investigating sustainability).

### Section A

1. This question is about your fieldwork which investigated **change over time**.

- (a) Give reasons for the choice of data collection method(s) when investigating change over time. [4]
  
- (b) Select one set of data that you used when investigating change over time. Draw a table to show the data you have selected.
  - (i) Draw a graph (on page 6) or map/diagram (on page 8) that best represents the data in your table. [6]
  
  - (ii) Analyse the patterns or trends shown by the graph, map or diagram. [4]
  
- (c) Evaluate the strengths and weaknesses of using secondary data when investigating change over time. [6]

The accuracy of your writing will be assessed in your answer to this question. [4]

**Section B**

2. This question is about your fieldwork which investigated **sustainability**.
- (a) Give reasons for the choice of data collection method(s) when investigating sustainability. [4]
  - (b) Select one set of data that you used when investigating sustainability. Draw a table to show the data you have selected.
    - (i) Draw a graph (on page 6) or map/diagram (on page 8) that best represents the data in your table. [6]
    - (ii) Analyse the patterns or trends shown by the graph, map or diagram. [4]
  - (c) Evaluate the strengths and weaknesses of using secondary data when investigating sustainability. [6]
- The accuracy of your writing will be assessed in your answer to this question. [4]
