Paper 1 Section B/B:

Conflict and tension, the inter-war years
1918–1939

Mark scheme

June 2019

Version: 1.0 Final

Mark schemes are prepared by the Lead Assessment Writer and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation events which all associates participate in and is the scheme which was used by them in this examination. The standardisation process ensures that the mark scheme covers the students' responses to questions and that every associate understands and applies it in the same correct way. As preparation for standardisation each associate analyses a number of students' scripts. Alternative answers not already covered by the mark scheme are discussed and legislated for. If, after the standardisation process, associates encounter unusual answers which have not been raised they are required to refer these to the Lead Assessment Writer.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of students' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this mark scheme are available from aqa.org.uk

AQA retains the copyright on all its publications. However, registered schools/colleges for AQA are permitted to copy material from this booklet for their own internal use, with the following important exception: AQA cannot give permission to schools/colleges to photocopy any material that is acknowledged to a third party even for internal use within the centre.

Level of response marking instructions

Level of response mark schemes are broken down into levels, each of which has a descriptor. The descriptor for the level shows the average performance for the level. There are marks in each level.

Before you apply the mark scheme to a student's answer read through the answer and annotate it (as instructed) to show the qualities that are being looked for. You can then apply the mark scheme.

Step 1 Determine a level

Start at the lowest level of the mark scheme and use it as a ladder to see whether the answer meets the descriptor for that level. The descriptor for the level indicates the different qualities that might be seen in the student's answer for that level. If it meets the lowest level then go to the next one and decide if it meets this level, and so on, until you have a match between the level descriptor and the answer. With practice and familiarity you will find that for better answers you will be able to quickly skip through the lower levels of the mark scheme.

When assigning a level you should look at the overall quality of the answer and not look to pick holes in small and specific parts of the answer where the student has not performed quite as well as the rest. If the answer covers different aspects of different levels of the mark scheme you should use a best fit approach for defining the level and then use the variability of the response to help decide the mark within the level, ie if the response is predominantly level 3 with a small amount of level 4 material it would be placed in level 3 but be awarded a mark near the top of the level because of the level 4 content.

Step 2 Determine a mark

Once you have assigned a level you need to decide on the mark. The descriptors on how to allocate marks can help with this. The exemplar materials used during standardisation will help. There will be an answer in the standardising materials which will correspond with each level of the mark scheme. This answer will have been awarded a mark by the Lead Examiner. You can compare the student's answer with the example to determine if it is the same standard, better or worse than the example. You can then use this to allocate a mark for the answer based on the Lead Examiner's mark on the example.

You may well need to read back through the answer as you apply the mark scheme to clarify points and assure yourself that the level and the mark are appropriate.

Indicative content in the mark scheme is provided as a guide for examiners. It is not intended to be exhaustive and you must credit other valid points. Students do not have to cover all of the points mentioned in the Indicative content to reach the highest level of the mark scheme.

An answer which contains nothing of relevance to the question must be awarded no marks.

Step 3 Spelling, punctuation and grammar (SPaG)

Spelling, punctuation and grammar will be assessed in question 04.

	Performance descriptor	Marks awarded
High performance	<ul style="list-style-type: none"> • Learners spell and punctuate with consistent accuracy • Learners use rules of grammar with effective control of meaning overall • Learners use a wide range of specialist terms as appropriate 	4 marks
Intermediate performance	<ul style="list-style-type: none"> • Learners spell and punctuate with considerable accuracy • Learners use rules of grammar with general control of meaning overall • Learners use a good range of specialist terms as appropriate 	2–3 marks
Threshold performance	<ul style="list-style-type: none"> • Learners spell and punctuate with reasonable accuracy • Learners use rules of grammar with some control of meaning and any errors do not significantly hinder meaning overall • Learners use a limited range of specialist terms as appropriate 	1 mark
No marks awarded	<ul style="list-style-type: none"> • The learner writes nothing • The learner's response does not relate to the question • The learner's achievement in SPaG does not reach the threshold performance level, for example errors in spelling, punctuation and grammar severely hinder meaning 	0 marks

Question 04 is an extended response question. They give students the opportunity to demonstrate their ability to construct and develop a sustained line of reasoning which is coherent, relevant, substantiated and logically structured.

0	1
---	---

Source A supports the return of the Saar to Germany. How do you know?

Explain your answer using **Source A** and your contextual knowledge.

[4 marks]

The indicative content is designed to exemplify the qualities expected at each level and is not a full exemplar answer. All historically relevant and valid answers should be credited.

Target Analyse sources contemporary to the period (AO3a)

Level 2: Developed analysis of source based on content and/or provenance 3–4

Students may progress from a simple analysis of the source with extended reasoning supported by factual knowledge and understanding related to the features of the source.

For example, the image shows an industrial area becoming part of Germany – this represents the industrial value of the Saar.

The poster was published in the year of the plebiscite vote by the population to re-join Germany.

Level 1: Simple analysis of source based on content and/or provenance 1–2

Students identify relevant features in the source and support them with simple factual knowledge and understanding.

For example, the woman looks happy to see the man who represents the Saar coming back to Germany; the poster was made in Germany so it must have been designed to celebrate the return of the Saar.

Students either submit no evidence or fail to address the question 0

0	2
----------	----------

How useful are **Sources B** and **C** to an historian studying the League of Nations?

Explain your answer using **Sources B** and **C** and your contextual knowledge.

[12 marks]

The indicative content is designed to exemplify the qualities expected at each level and is not a full exemplar answer. All historically relevant and valid answers should be credited.

Target **Analyse sources contemporary to the period (AO3a)**
Evaluate sources and make substantiated judgements (AO3b)

In analysing and evaluating sources, students will draw on their contextual knowledge to question critically the content and provenance of sources (for example, the context of the time in which source was created, place, author's situation, knowledge, beliefs, circumstances, access to information, purpose and audience).

Level 4: **Complex evaluation of both sources with sustained judgement based on content and provenance** **10–12**

Students may progress from a developed evaluation of the sources by complex reasoning related to utility on the basis of content and provenance. They may evaluate the relationship between the sources based on analysis of provenance and contextual knowledge.

For example, the sources are useful because they show how attitudes changed over time. The content of Source B shows that in the 1920s, wide ranging public support was expected from across several social groups for the ambitious aims of the League. Whereas the date and provenance of Source C shows that public confidence in the League has been undermined. It suggests that people are disillusioned and no longer believe it is an effective peace keeping force.

Level 3: **Developed evaluation of sources based on the content and/or provenance** **7–9**

Students may progress from a simple evaluation of the sources with extended reasoning related to utility on the basis of content and/or provenance.

For example, Source B is a useful example of the peacekeeping work achieved by the League of Nations in the Aaland Islands and the lifesaving work of its agencies in fighting diseases.

Source C is useful for showing that even though Great Britain was an important part of the League, some people had a negative opinion of the League's role in the Manchurian Crisis because it failed to prevent another powerful member from committing an act of war.

Level 2: Simple evaluation of source(s) based on content and/or provenance 4–6

Students may progress from a basic analysis of the source(s) to simple evaluation of the content and/or provenance.

For example, Source B was produced by an organisation that supported the aims of the League, so it is bound to focus on the success and be optimistic about the possibility of preventing war.

Source C is useful because it is critical of the League. It comments on the fact that the Lytton Report made no difference to Japan being aggressive towards China in 1932.

Level 1: Basic analysis of sources(s) 1–3

Answers may show understanding/support for one or both sources, but the case is made by assertion/basic inference.

Students identify basic features which are valid about the sources and related to the enquiry point, for example, Source B mentions the successes of the League of Nations; Source C is referring to Japan ignoring the instructions of the League of Nations.

Students either submit no evidence or fail to address the question 0

0 3

Write an account of how the aims of the peacemakers after the First World War led to disagreements in 1919.

[8 marks]

The indicative content is designed to exemplify the qualities expected at each level and is not a full exemplar answer. All historically relevant and valid answers should be credited.

Target **Explain and analyse historical events and periods studied using second-order concepts (AO2:4)**
Demonstrate knowledge and understanding of the key features and characteristics of the period studied (AO1:4)

Level 4: **Answer is presented in a coherent narrative/account that demonstrates a range of accurate and detailed knowledge and understanding that is relevant to the question** **7–8**

Extends Level 3.

Students may progress from a developed narrative of causation/consequence with complex sequencing and reasoning supported by a range of accurate and detailed factual knowledge and understanding which might be related, for example, to an analysis of how/why tension increased at different stages and /or showing understanding about how much each part of the sequence increased tension and led to a crisis.

For example, the opposing aims of the peacemakers led to disagreements because each leader had to pursue the best interests of their own country. France wanted a guarantee of physical security from future invasion by ensuring that Germany’s military and economic strength was weakened. Whereas Great Britain wanted to ensure that Germany was economically viable to guarantee mutually beneficial trade.

Level 3: **Developed analysis of causation/consequence**
Answer is presented in a structured and well-ordered narrative/account that demonstrates a range of accurate knowledge and understanding that is relevant to the question **5–6**

Extends Level 2.

Students may progress from a simple narrative of causation/consequence with developed sequencing and reasoning supported by a range of accurate factual knowledge and understanding which might be related, for example to an analysis of how/why tension increased at one stage in the process.

For example, the peacemakers disagreed over the territorial terms of the Treaty. President Wilson wanted the Treaty to be based on self- determination with countries ruling themselves. Lloyd George saw this as a threat to the British Empire. The Treaty took land off Germany but Britain and France were able to expand their empires.

Level 2: Simple analysis of causation/consequence **3–4**
Answer is presented in a structured account that demonstrates specific knowledge and understanding that is relevant to the question

Students may progress from a basic narrative of causation/consequence by showing a simple understanding of sequencing, supporting it with factual knowledge and understanding.

For example, Great Britain disagreed with France and did not want reparations to be too harsh because that would prevent Germany from being a potential trading partner.

Level 1: Basic analysis of causation/consequence **1–2**
Answer is presented as general statements which demonstrates basic knowledge and understanding that is relevant to the question

Students identify cause(s)/consequence(s) about the events such as France wanted Germany to pay more reparations.

Students either submit no evidence or fail to address the question **0**

Question 04 requires students to produce an extended response. Students should demonstrate their ability to construct and develop a sustained line of reasoning which is coherent, relevant, substantiated and logically structured.

0 4

'The policy of appeasement was the main cause of the Second World War.'

How far do you agree with this statement?

Explain your answer.

[16 marks]
[SPaG 4 marks]

The indicative content is designed to exemplify the qualities expected at each level and is not a full exemplar answer. All historically relevant and valid answers should be credited.

Target Explain and analyse historical events and periods studied using second-order concepts (AO2:8)
Demonstrate knowledge and understanding of the key features and characteristics of the period studied (AO1:8)

Level 4: Complex explanation of stated factor and other factor(s) leading to a sustained judgement 13–16
Answer demonstrates a range of accurate and detailed knowledge and understanding that is relevant to the question
Answer demonstrates a complex, sustained line of reasoning which has a sharply-focused coherence and logical structure that is fully substantiated, with well-judged relevance.

Extends Level 3.

Students may progress from a developed explanation of causation by complex explanation of the relationship between causes supported by detailed factual knowledge and understanding to form a sustained judgement.

For example, the policy of appeasement over the Sudetenland became a cause of the Second World War because it had the unforeseen consequence of helping Hitler's broader aim of gaining 'lebensraum'. Despite his promises in the Munich Agreement and the Anglo German declaration, Hitler had greater ambitions for the future of Germany. Furthermore, the exclusion of the USSR from the appeasement process also served to make war more likely because it led Stalin to make the Nazi-Soviet Pact which in turn led to the invasion of Poland.

Level 3: Developed explanation of the stated factor and other factor(s) 9–12
Answer demonstrates a range of accurate knowledge and understanding
that is relevant to the question

Answer demonstrates a developed, sustained line of reasoning which has coherence and logical structure; it is well substantiated, and with sustained, explicit relevance.

Extends Level 2.

Answer may suggest that one reason has greater merit.

Students may progress from a simple explanation of causation with developed reasoning supported by factual knowledge and understanding.

For example, the policy of appeasement gave Hitler control of the Sudetenland during the Munich Conference. This contributed to the outbreak of the Second World War because it made it possible for Hitler to invade the rest of Czechoslovakia which broke the Munich Agreement.

For example, it was Hitler’s expansionist foreign policy and rearmament programme that made war more likely. He was not willing to find diplomatic solutions to Germany’s grievances over the Treaty of Versailles.

Level 2: Simple explanation of stated factor or other factor(s) 5–8
Answer demonstrates specific knowledge and understanding that is
relevant to the question

Answer demonstrates a simple, sustained line of reasoning which is coherent, structured, substantiated and explicitly relevant.

Answers arguing a preference for one judgement but with only basic explanation of another view will be marked at this level.

Students may progress from a basic explanation of causation by simple reasoning and supporting it with factual knowledge and understanding.

For example, the main reason was the policy of appeasement because although it was meant to prevent war it had the opposite effect as it revealed that Britain would give into Hitler’s demands. Britain believed Hitler’s promises that he would not seek any further territory.

Level 1: Basic explanation of one or more factors **1–4**
Answer demonstrates basic knowledge and understanding that is relevant to the question

Answer demonstrates a basic line of reasoning, which is coherent, structured with some substantiation; the relevance might be implicit.

Students recognise and provide a basic explanation of one or more factors.

Students may offer a basic explanation of the stated factor, such as appeasement meant that Hitler grew more confident that he could take over countries.

Students may offer basic explanations of other factor(s), for example, the Nazi Soviet Pact was a main cause of the Second World War because it meant that Hitler knew he would only have to fight on one front.

Students either submit no evidence or fail to address the question **0**

Spelling, punctuation and grammar

	Performance descriptor	Marks awarded
High performance	<ul style="list-style-type: none"> • Learners spell and punctuate with consistent accuracy • Learners use rules of grammar with effective control of meaning overall • Learners use a wide range of specialist terms as appropriate 	4 marks
