MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2021 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **90** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Applying the Mark Scheme

- When marking a response the overall criterion to be considered should be – ‘How good is this response to this question?’
- The level descriptor should be used to decide the level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct level and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level they must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level, these marks should be used with reference to the development of the answer within that level.

Question	Answer	Marks
1(b)	Why did the 1848 revolutions bring little change to Germany?	6
	Level 4 – Explains TWO reasons	6
	Level 3 – Explains ONE reason	4–5
	(Four marks for one explanation, five marks for full explanation)	
	e.g. <i>‘The revolution brought little change to Germany because the Frankfurt Parliament failed to gain the support of the King and Princes. The Frankfurt Parliament struggled to build a nation state and a constitution at the same time. The President, Heinrich von Gagern, supported unification but insisted that the Parliament needed to gain the agreement of the rulers, who were highly reactionary. When the position of German Emperor was offered to Frederick William IV, he refused it because it had not been offered by his fellow heads of state. He said the offer had come from ‘the gutter.’</i>	
	Level 2 – Identifies AND/OR describes reasons	2–3
(One mark for each identification/description)		
e.g. <i>‘The Frankfurt Parliament was too divided to bring about change.’</i> <i>‘The liberals wanted to draft a constitution.’</i> <i>‘The radicals wanted a law-making parliament.’</i> <i>‘There was disagreement over whether Germany should include Austria.’</i> <i>‘Frederick William IV turned down the crown as German Emperor.’</i> <i>‘Austria was able to reassert its influence.’</i>

	<p>Level 5 – Explains with evaluation of 'how far'</p> <p>As Level 4 plus evaluation.</p>	10
	<p>Level 4 – Explanation of both sides</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other). This will be worth a mark of 7.</p> <p>Fuller explanation of one issue to be given two marks.</p> <p>An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p>	7–9
	<p>Level 3 – One-sided explanation OR one explanation of both sides</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. <i>'Nationalism was an important cause of revolution in 1848. In Hungary, the national groups were seeking independence from the Austro-Hungarian empire. In Italy, nationalist groups wished to remove foreign influence and unite with other states to form a larger nation.'</i></p> <p>OR</p> <p>e.g. <i>'Economic grievances were also important in causing the outbreak of the 1848 revolutions. In France, harvests failed in 1846 which caused widespread hardship. There was a recession in 1846–47 which left many workers unemployed. Food shortages and poor wages ignited calls for change and many workers joined the revolution to demand better conditions.'</i></p>	4–6
	<p>Level 2 – Identifies AND/OR describes</p> <p>(One mark for each point)</p> <p>e.g. <i>'There was a demand for a greater say in how the country was governed.'</i> <i>'There was a demand for unity between Italian states.'</i> <i>'Removal of foreign control was important to nationalist groups.'</i> <i>'There was unrest with the existing methods of government.'</i> <i>'Royal absolutism seemed to be out of date.'</i> <i>'Nationalism was significant but manifested itself in different ways in different places.'</i> <i>'There were a series of economic downturns just before the revolutions.'</i> <i>'There were crop failures which resulted in high prices.'</i> <i>'There was much unemployment.'</i> <i>'The peasants and the working urban poor were semi-starved and often jobless.'</i></p>	2–3

2(b)	Why was the Missouri Compromise important?	6	
	Level 4 – Explains TWO reasons		6
	Level 3 – Explains ONE reason		4–5
	(Four marks for one explanation, five marks for full explanation)		
	e.g. <i>‘The Missouri Compromise was important because when Missouri applied to be admitted as a state to the Union there was an equal balance of free and slave states. There was opposition to accepting Missouri as a slave state because it would give the slave owning states a majority in the Union. Therefore a solution was reached whereby the state of Maine was also created to keep the balance between slave and free states.’</i>		
	Level 2 – Identifies AND/OR describes reasons		2–3
(One mark for each identification/description)			
e.g. <i>‘It brought a solution to the changing attitudes to slavery.’</i> <i>‘It created a fierce debate between Northern and Southern Congressmen.’</i> <i>‘It allowed Missouri to become a state of the Union.’</i> <i>‘It brought equality among the states.’</i> <i>‘A northerly limit was fixed for slavery with no slavery allowed above the 36° 30’ latitude line.’</i>

	<p>Level 3 – One-sided explanation OR one explanation of both sides</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. <i>'It could be argued that economic factors were more important than military leadership. The North had the advantage industrially; compared to the South it had 85% of the industry of the US. This meant that the North had much greater capability to mass-produce weapons and supplies for war. The North also had control of most of the gold reserves of the United States and could finance expansion of armaments and railroads.'</i></p> <p>OR</p> <p>e.g. <i>'However, without good military leadership, no amount of weapons could win the war. The Union had a winning team in Grant and Sherman. Grant is sometimes seen as the war's greatest soldier and was responsible for important victories at Fort Donelson and Vicksburg. He became overall commander of the North's forces in 1864. Sherman was important as he captured Atlanta and took the war much further into Confederate territory than was expected. This had the effect of weakening the Confederacy both logistically and psychologically.'</i></p>	5–6 4–6
	<p>Level 2 – Identifies AND/OR describes</p> <p>(One mark for each point)</p> <p>e.g. <i>'The North had larger armies.'</i> <i>'The North had a navy.'</i> <i>'The North controlled the gold reserves.'</i> <i>'Grant and Sherman were able commanders.'</i> <i>'The Union won an important victory at Vicksburg.'</i> <i>'The North had manufacturing industry.'</i> <i>'The North had 70% of the railways.'</i> <i>'The South had less able commanders.'</i></p>	2–3

3(b)	Why did European powers ‘scramble for Africa’?	6	
	Level 4 – Explains TWO reasons		6
	Level 3 – Explains ONE reason		4–5
	(Four marks for one explanation, five marks for full explanation)		
	<p>e.g. ‘One reason for the ‘scramble for Africa’ was competition between European powers to take control of the last remaining lands which were not colonised. In 1876, King Leopold II of Belgium invited Henry Stanley to join him in researching the Congo basin. From 1878 to 1885, Stanley returned to the Congo with the secret mission to organise what would become known as the Congo Free State. When French intelligence discovered Leopold’s plans, France quickly engaged in its own colonial exploration, raising the French flag over the newly founded Brazzaville in 1881. Portugal also claimed the area.’</p>		
	Level 2 – Identifies AND/OR describes reasons		2–3

	<p>Level 3 – One-sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p><i>e.g. ‘European rule had a negative impact as the native peoples did not benefit from economic developments. For instance, European powers such as Britain and Belgium developed plantations in Africa. However, instead of growing food to feed the people of Africa, the plantations were organised to produce crops for processing into luxury or semi-luxury goods for the European market, such as cocoa (chocolate) and palm oil (soap and margarine). This meant local people did not benefit from the new trade and in some cases local people were treated as though they were slave labourers in the plantations.’</i></p> <p>OR</p> <p><i>e.g. ‘In Africa, Britain built roads, railways, schools and hospitals. This generally improved the standard of living of native peoples by increasing their mobility, improving their health and giving them an education. 	Level 3 – Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation) e.g. <i>‘There was tension in the Balkans because Serbia was angry that Austria-Hungary had annexed Bosnia in 1908. 	Level 4 – Explains TWO reasons	6
	Level 3 – Explains ONE reason	4–5
	(Four marks for one explanation, five marks for full explanation)	
	<p>e.g. <i>‘The Germans were confident the Schlieffen Plan would succeed because it was designed to ensure a quick and decisive victory for Germany. A wave of German troops would attack France through its northern borders which were not well defended. However, most troops would invade French territory through Belgium, Luxembourg and the Netherlands. These nations lacked strong military forces and their borders with France lacked defences. The German army would then invade France and capture Paris. The German High Command was confident it could defeat France in as little as 40 days. In the meantime, it was confident that it would take Russia six weeks to mobilise. That meant Germany had time to defeat France and avoid fighting on two fronts at the same time.’</i></p>

Germany planned to take Paris within 6 weeks, but the Belgians put up a stronger resistance than expected. Deep concrete forts protecting cities like Antwerp, Liege and Namur seriously delayed the Germans. Antwerp was not taken until October. The slowing of the Plan by the Belgians allowed the British to send the BEF, the French to reorganise their defences and the Russians to create a two-front war. All these factors meant the war was likely to last much longer than the Germans had first anticipated.'</i></p> <p>OR</p> <p>e.g. <i>'The Germans tried to capture the Channel ports of Dunkirk, Calais and Boulogne to cut off supplies for the BEF and reinforcements. The BEF met the Germans in the town of Ypres and held the town and saved the ports. The fighting continued until the end of November when both sides dug in for the winter. From this, two lines of trenches emerged which stretched all the way from the Swiss border to the North Sea. 	(Four marks for one explanation, five marks for full explanation)

Campaigners from the ANC defied apartheid laws by ignoring curfews, Pass Laws, entered ‘whites only’ waiting rooms and stood in white only lines at post offices. Over 8000 people were arrested under the Suppression of Communism Act, but the government felt this was not strong enough and the Public Safety Act was introduced so they could declare a state of emergency which would give them the ability to suspend all laws.’</i>

	<p>Level 3 – One-sided explanation OR one explanation of both sides 5–6 marks</p> <p>More detailed explanation of one issue to be given two marks.</p> <p><i>e.g. ‘In some ways resistance to apartheid had a limited impact before 1966 because the government introduced strong measures against it. The Criminal Law Amendment Act made it an offence to accompany anyone found guilty of offences. This meant friends and family of ANC members were under suspicion which made defiance against apartheid almost impossible. Under the state of emergency, the ANC and PAC were banned in 1960. Militant wings were formed but their bases were discovered at Rivonia. Seventeen MK leaders, including Mandela, were put on trial and found guilty. The leadership of the ANC were put in prison.’</i></p> <p>OR</p> <p><i>e.g. ‘However, resistance against apartheid was not entirely powerless. There was mounting criticism of apartheid within Africa. In the mid-60s, Lesotho, Botswana and Swaziland gained their independence and offered a refuge for ANC and PAC members, while Tanzania, under the OAU Liberation Committee, held a military training school for freedom fighters. In this way the anti-apartheid movement managed to continue and gain strength, albeit outside of South Africa.’</i></p>	4–6
