Paper 1

October/November 2022**MARK SCHEME**Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2022 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **72** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

GENERAL INSTRUCTIONS**Applying the Mark Scheme**

- When marking a response the overall criterion to be considered should be – ‘How good is this response to this question?’
- The ‘Level Descriptor’ should be used to decide the Level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

His kingdom consisted of most Italian states including Piedmont, Naples and Sicily.’ OR e.g. ‘However, Venetia and Rome were not part of Italy by 1861. Napoleon kept a garrison in Rome to protect the Pope. French Catholics were particularly influential, and they put pressure on Napoleon to allow the Pope to keep his independence. This meant the new Italian state would not be able to seize Rome.’	4–6
	Level 2 – Identifies AND / OR describes One mark for each point. e.g. ‘Venetia and Rome were not part of Italy in 1861.’ ‘Victor Emmanuel was proclaimed King of Italy in 1861.’ ‘Napoleon kept a garrison in Rome to protect the Pope.’	2–3

2(b)	Why was the Treaty of Olmütz a humiliation for Prussia?	6	
	Level 4 – Explains TWO reasons		6
	Level 3 – Explains ONE reason (Four marks for one explanation, five marks for full explanation) e.g. ‘The League of Princes was set up as a Prussian dominated union. When the ruler of Hesse–Cassel was overthrown, he turned to Austria, not Prussia, for help in suppressing the revolution. 	Level 3 – One-sided explanation OR one explanation of both sides 5 to 6 marks More detailed explanation of one issue to be given two marks. e.g. ‘The defeat of Austria was important because Austria had been so dominant among German states for so long and had reasserted its influence at Olmütz. This was now swept away by this defeat and ended any hope of Austria leading a united Germany. The Treaty of Prague brought huge gains to Prussia. Austria was forced to withdraw from German affairs, leaving Prussian influence to dominate.’ OR e.g. ‘However, Prussia still had to overcome France to be united. France remained neutral in the war of 1866, hoping to mediate between the two combatants, but the offer was declined by Bismarck. Napoleon III was stirring up demonstrations in Luxembourg. 	Level 4 – Explains TWO reasons		6
	Level 3 – Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation) e.g. ‘The Dred Scott case was controversial because it increased tensions between pro-slavery and anti-slavery factions in both the North and the South, further pushing the country towards the brink of civil war. Lincoln was a staunch opponent of slavery. Many Southerners thought Lincoln was unsympathetic to their views and, therefore, they wanted to secede from the Union to keep slavery.' OR e.g. 'However, there were other causes of tension between North and South which led to the Civil War. The South felt it needed to keep slavery so that it could run its plantations with a profit. The powers were also interested in opening markets for their manufactured goods.’ OR e.g. ‘However, the French wanted to treat the indigenous people as equals and tried to assimilate them into the French way of life. 	Level 3 – Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation) e.g. ‘The Disarmament Conference was held between 1932 and 1934. However, not all countries attended. For instance, Germany withdrew from the League and began to re-arm, complaining that other European countries had not disarmed to their level following the Versailles Settlement. For instance, in 1923 there was a dispute over Upper Silesia. This area was important as it was a valuable industrial area. It was on the border between Germany and Poland. It was granted to Poland under the Treaty of Versailles. However, the Germans protested. The League solved the dispute by proposing the area be partitioned and this was agreed by both sides.’</p> <p>OR</p> <p>e.g. ‘The League was not effective in resolving some disputes.
