MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2023 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **83** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

GENERAL INSTRUCTIONS

Applying the Mark Scheme

- When marking a response the overall criteria to be considered should be – ‘How good is this response to this question?’
- The ‘Level Descriptor’ should be used to decide the Level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level, s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

It is reported that when Lincoln met the author, he stated that she was the ‘little lady’ who had started the war with her book.’</p> <p>OR</p> <p>e.g. ‘ John Brown’s raid on Harpers Ferry was important as it gained attention about the issue of slavery. During the raid, Brown tried to persuade slaves to join a rebellion against slavery. This inspired anti-slavery groups. Brown was hailed as a man who had killed slavery and the Civil War broke out less than a year after his raid. Although John Brown was executed, many saw him as a martyr.’</p>	4–6

They thought £6.6 billion was too high and that their economy would not recover. Germany had also lost land in the treaty which contained coal mines, such as in the Saar Basin, and the profits from these would have helped to pay the reparations. They felt as though they were being punished twice over.’</p> <p>OR</p> <p>e.g. ‘However, there were other terms which also caused bitterness. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.	7–9
	Level 3 One-sided explanation OR one explanation of both sides 5 to 6 marks More detailed explanation of one issue to be given two marks. e.g. ‘The Korean War was a success for the UN as the Communist forces of the North were not able to overrun the South and an armistice was agreed at the 38 th parallel. This meant a stable situation was achieved and the dividing line between the two Koreas was in the same place. The UN forces, drawn from 16 countries, had helped to prevent one country from overrunning another.’ OR ‘The UN was dominated by the US and this made the UN look weak. The Korean War was a victory for the USA as it provided 90% of UN forces. It was the aim of North Korea to take over the South. In 1950 they invaded the South and pushed its forces back to Pusan. However, US troops managed to push them back. Even when the Chinese helped North Korea, the Americans were able to defend the South. The Americans had won because they had stopped South Korea being overrun and becoming communist.’	4–6

After the murder of Sergei Kirov in 1934 Stalin took action to remove the old Bolsheviks. In the Great Purge men like Zinoviev were accused of being Trotsky's agents and were executed following Show Trials. Those who had supported NEP, like Bukharin, were also arrested and killed in 1938. It seemed that Stalin was determined to wipe out anyone who had any connection to Trotsky, even if they had opposed his ideas.' 	Level 4 Explains TWO reasons	6
	Level 3 Explains ONE reason	4–5
	(Four marks for one explanation, five marks for full explanation) e.g. ‘One of the main reasons Americans could buy consumer goods in the 1920s was that hire purchase was introduced. This meant that workers could buy a new appliance, such as a car or a fridge, and pay for it in instalments. 	Level 3 One-sided explanation OR one explanation of both sides 5 to 6 marks More detailed explanation of one issue to be given two marks. e.g. ‘The victory was surprising in some ways. In May 1948 Israel was invaded by a coalition of six Arab states. The Israelis were invaded from all sides and this meant they had to fight on several fronts. By June, the Arabs had occupied almost a third of Israel, including the Jewish quarter of Jerusalem. This was a bad start and it looked as though the Arabs were in a strong position.’ OR e.g. ‘In other ways the victory was not a surprise. Israel was provided with financial support from allies in the US and Europe. This meant the Israeli army was equipped with the most up-to-date weapons. They had strong military leadership and were better organised and led than the Arab forces. They outnumbered the Arab forces and were more strongly united.’	4–6
	Level 2 Identifies AND / OR describes One mark for each point. e.g. ‘Six Arab states attacked Israel at the same time.’ ‘The Arabs were divided and outnumbered.’ ‘The Israelis had strong military leadership.’ ‘The US supported Israel.’ ‘By June 1948, the Jewish Quarter of Jerusalem had been overrun by Arab forces.’	2–3

	Level 5 Explains with evaluation of 'how far' 10 As Level 4 plus evaluation.	
	Level 4 Explanation of both sides 7–9 A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other). This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.	
	Level 3 One-sided explanation OR one explanation of both sides 5 to 6 marks 4–6 More detailed explanation of one issue to be given two marks. e.g. 'The issue of the Jewish settlements caused problems after Oslo. Although Israel gave up some land around Jericho, it was much less than the Palestinians had hoped for. There was violent opposition to the agreements from Palestinians and Israelis. Israeli politicians argued over the settlements. Likud wanted further expansion while Labor preferred to negotiate with the PLO. The tension and divisions over this were seen in the assassination of Rabin by an Israeli student.' OR e.g. 'Other issues caused tension.
