

## **MARK SCHEME for the May/June 2014 series**

### **0470 HISTORY**

**0470/41**

Paper 4 (Alternative to Coursework), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Level 2 – Makes valid inferences, unsupported from the source e.g. the Unions' ambitious objectives to improve the status and life prospects of agricultural workers in many areas etc. [3 – 4]

Level 3 – Supports valid inferences with reference to the source e.g. The Union wanted to improve the life prospects of the members in terms of pay, working hours with special mention of Saturdays, allotments to allow food producing recreation and even support emigration etc. [5 – 6]

**(ii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Agrees OR disagrees, unsupported from the source. [1 – 2]

Level 2 – Agrees OR disagrees, supported from the source e.g.

Yes – Determination and loyalty of the member to maintain his membership; the promise of butter on his bread appears to be very attractive – symbolises increases in pay and strength in solidarity etc.

No – The master still feels his threats will work – 'Union or me'; union reputation of being 'disturbers of the peace' may undermine some agricultural workers etc. [3 – 5]

Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' [6 – 7]

**(iii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Useful/not useful – Choice made on the basis that one is more detailed/gives more information, but does not specify what information. [1]

Level 2 – Useful/not useful – Both sources are from the Unions, one from the rules, the other from a union song, so they could both be biased/unreliable. [2]

Level 3 – Choice made on the nature or amount of information given. Must specify what information. [3 – 5]

Level 4 – Choice made on the grounds of reliability.

Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross reference between A and B to show reliability.

6 marks for one source, 7 marks for both. [6 – 7]

**(b) (i)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – One mark for each valid aspect to a maximum of two e.g. Joseph Arch, 1872. [1 – 2]

**(ii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Identifies problems e.g. vested interests; reluctance to change. [1 – 2]

Level 2 – Describes problems. Award an extra mark for each problems described in additional detail e.g. Opposition from employers; wide dispersion of workers and difficulty of arranging anything else but small meetings; communications; illiteracy; fear of losing tied cottages if joined a union; example of Tolpuddle Martyrs etc. [2 – 4]

**(iii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Single reasons. One for the reason, one for the explanation. [1 – 2]

Level 2 – Multiple reasons. One for each reason, one for each reason explained e.g. It was thought that unskilled workers could not combine; example of old GNCTU; emphasis was on ‘model’ unions with their skilled workers; lack of leadership and communication; difficult to find a common cause; many were casual labourers; finance; fear of reprisal etc. [2 – 4]

**(iv)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Simple assertions. No, most would not understand the concept of ‘socialism’. [1]

Level 2 – Explanation of main force OR not main force with single factor given e.g.

Yes – No doubt that there was a surge in socialism in the last part of the nineteenth century; helped to show workers what to aim for; produced leaders; pamphlets and meetings got public interest; increasing awareness of class differences and questioning current social order; must it always be like this etc.?

No – Workers advance by their own efforts – Match Girls played a big part; public sympathy and donations during the Dockers’ Strike played a part; leaders like Ben Tillett; more aware of working and living conditions; wages; better education and newspapers meant more was known and understood etc. [2]

Level 3 – Explanation of main force OR not main force with multiple factors. Allow single factors with multiple reasons.

### **OR**

Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief) [3 – 5]

Level 4 – Answers that offer a balanced argument.

BOTH sides of main force AND not main force must be addressed. [6 – 8]

Level 1 – Repeats material stated in the source, no inference made. [1 – 2]

Level 2 – Makes valid inferences unsupported from the source e.g. China suspicious/fearful of the power of the foreign countries but believe if all of China pull together, they can overcome any threat etc. [3 – 4]

Level 3 – Supports valid inferences with reference to the source e.g. Sees the threat increasing daily; understands that foreigners want to go further into China to the innermost territories; believes they are beatable if hundreds of millions rally to their Emperor's call etc. [5 – 6]

**(ii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Agrees OR disagrees, unsupported from the source. [1 – 2]

Level 2 – Agrees OR disagrees, supported from the source e.g.

Yes – They were no threat to the dynasty; they declared 'Support the Emperor'; no attempt to stop them entering Beijing; their attacks on foreigners went unpunished etc.

No – The Boxers recognise government supporters are many; link supporters with foreign forces; calculate that they can get rid of supporters and invaders at one and the same time etc. [3 – 5]

Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' [6 – 7]

**(iii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Useful/not useful – Choice made on the basis that one is more detailed/gives more information, but does not specify what information. [1]

Level 2 – Useful/not useful – One is a Chinese Imperial Decree and the other is from a British textbook, so they could both be biased/unreliable. [2]

Level 3 – Choice made on the nature or amount of information given. Must specify what information. [3 – 5]

Level 4 – Choice made on the grounds of reliability.

Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross reference between A and B to show reliability.

6 marks for one source, 7 marks for both. [6 – 7]

**(b) (i)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Identifies wars. e.g. Attempts by Britain to monopolise the trade in opium to China. [1 – 2]

Level 2 – Describes wars e.g. award an extra mark for each valid aspect described in additional detail e.g. attempts to force China to import opium from British sources; really about whether Europeans could establish valuable trading rights and influence in China or whether China would be strong enough to resist and maintain its imperial heritage etc. [2 – 4]

**(iii)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Single reason. One for the reason, one for the explanation. [1 – 2]

One for each reason, one for each explanation e.g. All saw China as a valuable potential market in itself but also as a centre for Far East trade generally; Missionaries saw it as a challenge and countries supplied Christian missionaries to establish Western culture etc.; prestige; if one country gained a new concession, others became jealous and demanded more; hence, a cumulative effect etc. [2 – 6]

**(iv)** Level 0 – No evidence submitted or response does not address the question. [0]

Level 1 – Simple assertions. Yes, a lot of converted Chinese were killed. [1]

Level 2 – Explanation of Christian focus OR other focus, single factor given e.g.

Yes – Had a very strong religious focus and much of its violence was against Christianity, either by attacks on Chinese converts, the missionaries or missions; Christianity was seen as a threat to traditional Chinese culture etc.

No – It was hostile to all foreign influence; leaders and supporters were all Chinese; saw foreigners and their customs and culture, behaviour and separate laws as a threat to their own way of life; widely supported by Chinese with implicit backing from the Qing dynasty; however, it was not a 'national rising'; many areas unaffected; Boxers were a secret society and was partly a martial arts movement etc. [2]

Level 3 – Explanation of Christian focus OR other focus with multiple factors. Allow single factors with multiple reasons.
