QUESTION 2

Study Sources D and E below and answer the question which follows.

Source D

Terrible is God's anger towards the sons of men. He often allows plagues, miserable famines, conflicts, wars and other forms of suffering to arise, and uses them to terrify and torment men and so drive out their sins. And thus, indeed, the realm of England, because of the growing pride and corruption of its subjects, and their numberless sins, is to be oppressed by the pestilences.

[The Prior of the Abbey of Christchurch in Canterbury, writing in a letter to the Bishop of London 28 September 1348]

Source E

Various forms of epidemic disease amongst the labouring classes are caused by atmospheric impurities produced by decaying animal and vegetable substances, by damp and filth, and overcrowded dwellings. The annual loss of life from filth and bad ventilation are greater than the loss from death or wounds in any war in which the country has been engaged in modern times.

[Edward Chadwick, public health campaigner, writing in *Report on the Sanitary Conditions of the Labouring Population* 1842]

Which of the two sources is the more reliable to an historian studying the causes of illness and disease over time?
