INSTRUCTIONS TO CANDIDATES

Use black ink or black ball-point pen. Do not use pencil or gel pen.
Do not use correction fluid.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer all questions on the examination paper.

Write your answers in the spaces provided in this booklet. If you run out of space, use the additional page(s) at the back of the booklet, taking care to number the question(s) correctly.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets at the end of each question or part-question.

Question 5 will assess your ability to construct a balanced, reasoned and well-substantiated extended narrative response.

In addition your answer to question 5 will assess your ability to spell, punctuate and use grammar accurately and use a wide range of specialist terms as appropriate.

JUN19C100U60101

Answer all questions.

QUESTION 1

Look at Sources A, B and C which show attempts to treat and cure illness and disease over time and answer the question which follows.

Source A

[Attempting to treat and cure illness and disease in medieval times]

Source B

[Attempting to treat and cure illness and disease in the mid-20th century]

QUESTION 2

Study Sources D and E below and answer the question which follows.

Source D

In 1349 over six hundred men came to London from Flanders. Each wore a cap marked with a red cross. Each had in his right hand a whip with three nails. They marched naked in single file and whipped themselves causing their bodies to bleed.

[Sir Robert of Avesbury, a royal clerk writing in a 14th century chronicle. He had witnessed people attempting to avoid the Black Death]

Source E

In the Broad Street area there were many fatal attacks of cholera. As soon as I became acquainted with the situation I suspected some contamination of the water from the pump in Broad Street. As a result of my findings the pump was shut down.

[Dr John Snow, a physician who researched the causes of cholera writing in a report entitled *On the Communication of Cholera* in 1855]
