INSTRUCTIONS TO CANDIDATES

Use black ink or black ball-point pen. Do not use pencil or gel pen. Do not use correction fluid.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer ALL the questions on the examination paper.

Write your answers in the spaces provided in this booklet. If you run out of space, use the additional page(s) at the back of this booklet, taking care to number the question(s) correctly.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets at the end of each question.

Question 7 will assess your ability to construct a balanced, reasoned and well-substantiated extended response.

In addition, your answer to question 7 will assess your ability to spell, punctuate and use grammar accurately and use a wide range of specialist language as appropriate.

Answer all questions.

QUESTION 1

Complete the sentences below with an accurate term.

[4]

- (a) In 1348-1349 millions of people in Britain were killed
by the
- (b) In the 1840s James Simpson pioneered the use of chloroform
as an
- (c) In 1895 the German scientist, Wilhelm Röntgen,
discovered
- (d) In 1948 the Labour government created the

QUESTION 2

This question is about attempts to prevent illness and disease.

Look at Sources A, B and C which show different attempts to prevent illness and disease over time and answer the question which follows.

Source A

[A medieval doctor bleeding a patient]

Source B

[Edward Jenner vaccinating a patient against smallpox in the 1790s]

Source C

[Vaccination of school pupils against TB in 1955]

Use Sources A, B and C to identify **one** similarity and **one** difference in attempts to prevent illness and disease over time. [4]

[Use at least two of the sources to answer the question.]
