# GCSE MARKING SCHEME

**SUMMER 2024**

**GCSE**
**MATHEMATICS – NUMERACY**
**UNIT 2 – INTERMEDIATE TIER**
**3310U40-1**

**About this marking scheme**

The purpose of this marking scheme is to provide teachers, learners, and other interested parties, with an understanding of the assessment criteria used to assess this specific assessment.

This marking scheme reflects the criteria by which this assessment was marked in a live series and was finalised following detailed discussion at an examiners' conference. A team of qualified examiners were trained specifically in the application of this marking scheme. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners. It may not be possible, or appropriate, to capture every variation that a candidate may present in their responses within this marking scheme. However, during the training conference, examiners were guided in using their professional judgement to credit alternative valid responses as instructed by the document, and through reviewing exemplar responses.

Without the benefit of participation in the examiners' conference, teachers, learners and other users, may have different views on certain matters of detail or interpretation. Therefore, it is strongly recommended that this marking scheme is used alongside other guidance, such as published exemplar materials or Guidance for Teaching. This marking scheme is final and will not be changed, unless in the event that a clear error is identified, as it reflects the criteria used to assess candidate responses during the live series.

# WJEC GCSE MATHEMATICS - NUMERACY

## SUMMER 2024 MARKING SCHEME

| Unit 2: Intermediate Tier | Mark | Comments |
|---|---|---|
| 1. (Amount needed to save after next week)<br>(£)510 – 165  or  (£) 510 –  (95 + 70)<br>      or (£) 510 –  95 – 70　　　(=£345) | M2 | May be seen in stages<br>Allow missing brackets provided not contradicted in further working<br>M1 for sight of any one of<br>• 510 – 95 (= £415)<br>• 510 – 70 (= £440) |
| (Amount to save per week £)　　　　÷ 12 | m1 | Depends on at least M1 previously awarded |
| (£) 28.75 | A1 | CAO.
