1. 

Diagram NOT accurately drawn
Two solid shapes, A and B, are mathematically similar.
The base of shape $A$ is a circle with radius 4 cm .
The base of shape $B$ is a circle with radius 8 cm .
The surface area of shape $A$ is $80 \mathrm{~cm}^{2}$.
(a) Work out the surface area of shape B.

The volume of shape B is $600 \mathrm{~cm}^{3}$.
(b) Work out the volume of shape A .

The two cylinders, A and B, are mathematically similar. The height of cylinder B is twice the height of cylinder A. The total surface area of cylinder A is $180 \mathrm{~cm}^{2}$.

Calculate the total surface area of cylinder B.

The diagram represents a large cone of height 6 cm and base diameter 18 cm .
The large cone is made by placing a small cone A of height 2 cm and base diameter 6 cm on top of a frustum $B$.

Calculate the volume of the frustum B.
Give your answer in terms of $\prec$.
4.

Diagram NOT accurately drawn

Cylinder A and cylinder B are mathematically similar.
The length of cylinder A is 4 cm and the length of cylinder B is 6 cm .
The volume of cylinder A is $80 \mathrm{~cm}^{3}$.
Calculate the volume of cylinder B.

X and Y are two geometrically similar solid shapes.
The total surface area of shape $X$ is $450 \mathrm{~cm}^{2}$. The total surface area of shape Y is $800 \mathrm{~cm}^{2}$.

The volume of shape X is $1350 \mathrm{~cm}^{3}$.
Calculate the volume of shape Y .
6.

4 cm

Diagram NOT accurately drawn

Two cylinders, P and Q, are mathematically similar.
The total surface area of cylinder P is $90 \prec \mathrm{~cm}^{2}$.
The total surface area of cylinder Q is $810 \prec \mathrm{~cm}^{2}$.
The length of cylinder $P$ is 4 cm .
(a) Work out the length of cylinder Q .

The volume of cylinder $P$ is $100 \prec \mathrm{~cm}^{3}$.
(b) Work out the volume of cylinder Q .

Give your answer as a multiple of $\prec$.

Two cones, P and Q , are mathematically similar.
The total surface area of cone $P$ is $24 \mathrm{~cm}^{2}$.
The total surface area of cone Q is $96 \mathrm{~cm}^{2}$.
The height of cone $P$ is 4 cm .
(a) Work out the height of cone Q .

The volume of cone P is $12 \mathrm{~cm}^{3}$
(b) Work out the volume of cone Q .
