INSTRUCTIONS

- Use black ink
- Write your answer to each question in the space provided. If you need extra space use the lined pages at the end of this booklet. The question numbers must be clearly shown.
- Answer **all** the questions

INFORMATION

- The total mark for this paper is **105**.
- The marks for each question are shown in brackets [].
- Quality of extended responses will be assessed in questions marked with an asterisk (*).
- This document has **20** pages

ADVICE

- Read each question carefully before you start your answer.

2

Section A

Core studies

1

- (a) Outline **one** difference between the samples used in Bandura et al.'s (1961) study into the transmission of aggression and Chaney et al.'s (2004) Funhaller study.

.....

.....

.....

.....

.....

.....

.....

.....

..... [3]

- (b) Outline **one** difference between the experimental designs used in Bandura et al.'s (1961) study into the transmission of aggression and Chaney et al.'s (2004) Funhaller study.

.....

.....

.....

.....

.....

.....

.....

.....

..... [3]

3

2 With reference to Kohlberg's (1968) study into the stages of moral development:

(a) Give **two** reasons why children at the pre-conventional level say that Heinz should **not** have stolen the drug for his wife.

1

.....

.....

2

.....

.....

[2]

(b) Outline **one** conclusion that can be drawn from the findings of Kohlberg's study.

.....

.....

.....

.....

..... [2]

3 Outline the background to Moray's (1959) study into auditory attention.

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

4

4 Grant et al.'s (1998) study into context-dependent memory was a laboratory experiment.

(a) Describe **one** strength of using a laboratory experiment in this study.

.....

.....

.....

.....

..... [2]

(b) Outline **two** features of the procedure in this study.

1

.....

.....

.....

.....

2

.....

.....

.....

.....

..... [4]

5

- 5 Explain how the findings from Bob Cialdini et al.'s (2012) study into obedience and whistleblowing relate to the key theme of 'responses to people in authority'.

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [3]

- 6 Briefly discuss the extent to which the findings of Maguire et al.'s (2000) study on tax drivers can be considered valid.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [5]

6

- 7 Explain why Hancock et al.'s (2011) study into the language of psychopaths can be placed in the individual differences area.

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [3]

7

8 Explain why Gould (1982) considered Yerkes's research using IQ testing to be ethnocentric

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

Section B

Areas, perspectives and debates

9

- (a)** Explain **one** application of the cognitive area of psychology.

[4]

(b) Outline ways in which the biological area can be considered scientific. Support your answer with evidence from any appropriate studies.

[illegible]

(c) Compare the biological area with the social area. Support your answer with evidence from appropriate studies

[8]

10

- (a) From Piliavin et al.'s (1969) Subway Samaritan study, outline what 'diffusion of responsibility' means **and** how it relates to this article.

[3]

- (b)** From Levine et al.'s (2001) study of cross-cultural altruism, outline what 'empathia' means **and** how it relates to this article.

..... [3]

- (c) Explain how this article relates to the social area of psychology. Support your answer with evidence from the article.

[4]

(d) Outline the results from Piliavin et al.'s (1969) Subway Samaritans study **and** briefly explain how these results may relate to the article. Support your answer with evidence from the article.

..... [7]

- (e) Using your psychology knowledge, suggest **and explain** at least **two** ways in which individuals may be encouraged to help others from diverse social and cultural backgrounds.

[8]

(f)* Evaluate the suggestions you have made in part **(e)** using your knowledge of physiology.

[10]

END OF QUESTION PAPER

EXTRA ANSWER SPACE

If you need extra space use these lined pages. You must write the question numbers clearly in the margin.

This image shows a full page of primary-ruled paper. It features a vertical solid line on the left side, creating a narrow margin. The rest of the page is filled with horizontal dashed lines, providing a guide for letter height in handwriting practice. There are no markings or text on the page.
