

Outline and evaluate Vygotsky's theory of cognitive development.

[illegible]

(Total 8 marks)

Q2.

Leonard and Felix are primary school teachers. They discuss the methods they use in their classrooms.

Leonard says, “Children need to experiment with the right sort of task. They learn well if they make mistakes until they get it right.”

Felix says, “Children need various levels of guidance to achieve their potential. The more able children can really help the ones who are struggling.”

Use your knowledge of theories of cognitive development to explain the comments made by Leonard and Felix.
