## **Q2**.

Two police officers are discussing the testimony of an eyewitness. The eyewitness had described a robbery she had seen.

'At first, the witness said she was convinced the suspect was wearing glasses and had a limp,' explained one of the officers, 'but later she said she may have just been repeating what she'd heard from other witnesses.'

'I'm not sure we're going to be able to use her statement,' replied the other officer.

Discuss the effect of post-event discussion on the accuracy of eyewitness testimony. Refer to the information above in your answer.
