

Scientific Processes (A2 Only) – Questions by Topic (MCQ)

Q1.

Psychologists often need to select participants to take part in research. The descriptions below are all types of sampling method.

- A** The psychologist puts an advert in a newspaper, asking for participants.
- B** The psychologist uses lists of students in a university and selects every tenth student to take part.
- C** The psychologist asks some of his psychology students to take part in the research.
- D** The psychologist gives a number to all students in a university, then selects participants in an unbiased way.

In the table below, write which description, **A**, **B**, **C**, or **D**, matches each sampling method.

Sampling Method	Description
Random Sample	
Opportunity Sample	
Volunteer Sample
