### ADDITIONAL MATERIALS

In addition to this examination paper, you will need a calculator.

#### **INSTRUCTIONS TO CANDIDATES**

Use black ink or black ball-point pen.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer all the questions in Section A. You may use continuation paper on page 10 if necessary, taking care to number the continuation correctly.

Answer one question from Section B.

You are advised to spend no more than one hour on Section A.

#### INFORMATION FOR CANDIDATES

The number of marks is given in brackets at the end of each question or part-question. Section A has 40 marks and Section B has 20 marks.

You are reminded that assessment will take into account the quality of written communication used in answers that involve extended writing (Section B).

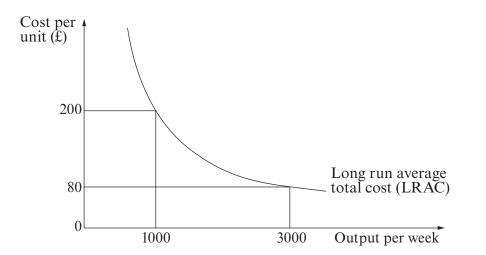

You are reminded that the essay questions in Section B are synoptic and so will test understanding of the connections between the different elements of the subject.

#### 7. MPC to hold interest rates at 0.5%

Bank of England Governor Mervyn King has fought off demands from some members of the Monetary Policy Committee (MPC) to raise interest rates. They wanted interest rates to rise from 0.5% to at least 1%. Figures out next week are expected to show inflation for January 2011 jumped above 4%, more than 2% above the MPC's inflation target of 2%, with the prospect of it nearing 5% before the summer.

However, King has insisted that even a modest rise in interest rates could harm the recovery, which is already threatened by Government spending cuts and weak domestic demand. Government figures last month revealed that the economy's Gross Domestic Product (GDP) fell by 0.5% in the final quarter of 2010.

MPC member Andrew Sentance has consistently argued that rates need to rise before businesses begin to raise prices and workers start to increase wage demands to cope with higher inflation.

Adapted from the Guardian, 2 February 2011

Discuss whether the Monetary Policy Committee (MPC) was right to keep interest rates at 0.5%. [6]
