INSTRUCTIONS TO CANDIDATES

In Section **A**, answer **either** questions 1 and 2 **or** questions 3 and 4.

Answer **all** questions in Section **B** and **all** questions in Section **C**.

Use black ink or black ball-point pen.

Write your name, centre number and candidate number in the spaces at the top of this page.

Write your answers in the spaces provided in this booklet.

If further space is required you should use the continuation pages at the end of this booklet. The question number(s) should be clearly shown.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets [ ] at the end of each question or part-question; you are advised to divide your time accordingly.

This paper requires that you make as full use as possible of appropriate examples and reference to data to support your answer. Sketch maps and diagrams should be included where relevant.

A plain page is available at the end of each section for you to add any relevant sketch maps and diagrams you may wish to include. The question number(s) should be clearly shown.

Section A: Changing Landscapes

*Answer **either** questions 1 and 2 **or** questions 3 and 4 from your chosen landscape.*

Make the fullest possible use of examples and data to support your answers.

Either: Coastal Landscapes

*Answer questions 1 **and** 2 if this is your chosen landscape.*

Figure 1: Coastal landscape at Llantwit Major, South Wales

1. *(a)* Use **Figure 1** to describe **two** distinctive landforms of this coastal landscape. [5]

Section B: Tectonic Hazards

*Answer **all** questions.*

Make the fullest possible use of examples and data to support your answers.

Figure 5a: Amatrice, Italy, before and after the earthquake of 24ᵗʰ August 2016

Before earthquake   After earthquake

Source: mic.com

Figure 5b: Extract from UK newspaper, 2016

August earthquake in Italy expected to cost 34 million euros in property damage

- 3 British tourists killed
- Regional heritage destroyed
- Only 1% of homes have earthquake insurance

5. *(a)* (i) Use **Figure 5a** to describe the immediate impacts of the earthquake. [5]

....

....

....

....

....

....

....

....

....

....

....

(ii)   Use **Figures 5a and 5b** to suggest the possible long-term economic impacts of the earthquake.   [5]

....

....

....

....

....

....

....

....

....

(b)   Outline the characteristics of **two** types of earthquake (seismic) waves.   [5]

....

....

....

....

....

....

....

Figure 6: Spearman Rank correlation for the magnitude and depth of earthquakes

The null hypothesis (H0) is that there is no significant correlation between the magnitude and depth of an earthquake.

The alternative hypothesis (H1) is that there is a significant correlation between the magnitude and depth of an earthquake.

Figure 6a: Magnitude and depth of selected earthquakes
Figure 6b: Spearman Rank data table

Earthquake	Magnitude – Richter scale	Rank	Depth (km)	Rank	d	d^2
Sumatra	9.3	1	20	3.5	−2.5	6.25
Miyagi	9.0	2	24	2	0	0
Sichuan	7.9	3	12	8.5	−5.5	30.25
Nepal	7.8	4	20	3.5	0.5	0.25
Gujarat	7.7	5	16	5	0	0
Kashmir	7.6	6	26	1		
Haiti	7.0	7	13	6.5	0.5	0.25
Algeria	6.8	8	12	8.5	−0.5	0.25
Kerman	6.6	9	10	10	−1	1
Java	6.3	10	13	6.5	3.5	12.25
					$\sum d^2 =$	

(c) (i) Use **Figure 6b** to plot the data for Miyagi onto **Figure 6a**. [2]

(ii) Calculate the missing values for d and d^2 for Kashmir and insert them into **Figure 6b**. [2]

(iii) Calculate the sum of d^2 and insert it into **Figure 6b**. [1]

(iv) Calculate the value of the Spearman Rank correlation coefficient using the formula below, where *n* is the number of pairs of data (*n* = 10). Give your answer to 2 decimal places. [3]

$$r_s = 1 - \frac{6\Sigma d^2}{n^3 - n}$$

(v) Using the table below, state the statistical significance of the result of the Spearman Rank calculation. [2]

....

....

....

....

Significance (confidence level)		
n	**95% (0.05)**	**99% (0.01)**
8	0.64	0.83
9	0.60	0.79
10	0.56	0.75

Section C: Challenges in the 21st Century

7. Suggest how hazards can affect connections between places. [10]

*In your answer to question 7, you may use the material in **Figures 7a** and **7b**, but should apply your knowledge and understanding of the connections between different aspects of this area across the whole specification.*
