QUESTION 1

1 (a) Study Fig. 1 (Insert), which is a map showing population distribution in part of Asia.

(i) Complete the table below by inserting the names of the following three countries. The countries should be arranged in rank order of their total population size.

<td>smallest total population</td>
</tr>
</tbody>
</table>

(ii) Using evidence from Fig. 1 only, describe one difference in population density and one difference in population distribution between the islands of Sumatra and Borneo.

QUESTION 2

2 (a) Study Fig. 3, which is a graph showing an index of inequality in some large urban areas in different countries.

Inequality means differences in wealth, level of poverty and access to things such as jobs, housing and education.

A higher index value means less inequality and a lower index value means more inequality.

Fig. 3

(i) Complete the table below by inserting the names of the following three cities. The cities should be arranged in rank order of their United Nations index of inequality.

<table>
<thead>
<tr>
<th>Cairo</th>
<th>New York</th>
<th>Paris</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Most equal</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Least equal</td>
<td></td>
</tr>
</tbody>
</table>

(ii) Complete Fig. 3 by plotting the following information:

– The UN index for London is 0.8.

– The UN index for Lagos is 0.25.
(iii) Lagos is the urban area with the highest level of inequality.

Suggest three likely problems this will cause.

2 ........................................................................................................................................
   ........................................................................................................................................

3 ........................................................................................................................................
   ........................................................................................................................................

(iv) Explain why, in many cities, there is a high level of inequality.

(b) Study Fig. 4, which shows information about poverty in Baltimore, an urban area in the USA (an MEDC).

Fig. 4

(i) Describe the distribution of areas where 22.9% or more of households are in poverty.

(ii) The following ideas to reduce inequality are being considered in Baltimore:

A  Improve security by employing more police.

B  Demolish derelict factories and build new housing on the land.

C  Offer low-cost loans to owners of high technology industries to set up in Baltimore.

D  Allow people on low incomes free use of public transport.

Do you think any of the ideas above are likely to reduce inequality in Baltimore? Give reasons for your answer.
