(c)	-0.816	(1) B1 (1)
Total 4 marks		
Notes:		
1(a)	<p>M1 for knowing formula and clear attempt to sub in correct values from question. Root required for method. Anything that rounds to -0.82 for A1. Correct answer with no working award 2/2</p>	
(b)	<p>Context based on negative correlation only required. Accept <u>Houses</u> are <u>more expensive</u> closer to the <u>station</u> or equivalent statement. Require 'house prices' or 'station' and a clear correct comparison.</p>	
(c)	<p>Accept anything that rounds to -0.82 or 'the same' or 'unchanged' or equivalent. Award B1 if value quoted same as answer to (a).</p>	

Question Number	Scheme	Marks

(d)	'Quartiles equidistant from median' or equivalent award B1 then symmetrical or no skew for B1 Alternative: 'Positive tail is longer than negative tail' or 'median closer to lowest value' or equivalent so slight positive skew. B0 for 'evenly' etc. instead of 'symmetrical' B0 for 'normal' only	
(e)	Please note that B mark appears first on ePEN First line might be missing so first M1 can be implied by second. Second M1 for standardising with sigma and equating to z value NB Using 0.7734 should not be awarded second M1 Anything which rounds to 0.67 for B1. Accept 0.675 if to 3sf obtained by interpolation Anything that rounds to 13.3 – 13.4 for A1.
